Peanut and Peanut Oil Selections

- **Peanut Butter** is not commonly used in dining locations.
 - Peanut butter is handled at our Production Kitchen that makes pre-packaged goods. Safety protocols are in place when producing peanut butter wedge sandwiches. The production team creates peanut butter sandwiches at the end of the day on covered tables and uses cleaning protocols for safely packaging peanut butter wedge sandwiches. These items are packaged in wedge containers and delivered to grab-and-go coolers campus-wide.
- **Peanut Butter** is sold in mini pc's (personal/private containers) at select locations (Einstein Bros. Bagels®, Starbucks®, and other units) available upon request and is housed in separate bins in small plastic containers or prepackaged items directly from manufactures.
- **Peanut Butter Desserts**
 - Pies (PNB Cups and Snicker Pies) are in clam shell boxes in the grab-and-go sections at The Market's mini market and should be labeled "Contains Nuts."
