COURSE OFFERINGS BOOKLET

This page is left blank intentionally.

ADMISSION TO HONORS COURSES

Honors courses are designed for Honors College members; however, any TTU student with a GPA of 3.0 or better is eligible to enroll in an Honors section as space permits.

For more information, or to request a seat in an Honors section, please contact the Honors College: McClellan Hall, Room 101 | (806) 742-1828 | honors.advising@ttu.edu

GRADUATION WITH HONORS DESIGNATIONS

Students must complete 24 hours in Honors coursework to graduate from Texas Tech University with the transcript designation “with Honors from the Honors College.”

A student who wishes to graduate with the transcript designation “with Highest Honors from the Honors College” must complete an Honors thesis and 30 hours of Honors coursework. Permission from the Honors College is required before beginning the Honors thesis.

Students must maintain a TTU GPA of 3.5 to remain in the Honors College and graduate with either of the above Honors designations.

Students intending to graduate with either designation must file an “Intent to Graduate” form with the Honors College one year prior to the graduation date. Honors College designations are listed on the transcript and the diploma. These are in addition to other distinctions graduates may earn, such as Latin Honors (e.g., *Summa cum laude*, *Magna cum laude*, and *Cum laude*).

HOW TO USE THIS BOOKLET

The core curriculum information listed in this booklet reflects the university’s list of core curriculum requirements, effective fall 2014 and following.

*** Course information, such as days and times, are subject to change. ***

If you notice a discrepancy between the contents of this booklet and info reflected on Raiderlink, please note that Raiderlink is updated with greater frequency; thus, it’s likely more up-to-date. That said, we encourage you to contact the Honors Advising team (at honors.advising@ttu.edu) if you notice any such a discrepancy.

October 2023

Honors student:

Registration for Spring 2024 courses is approaching! Along those lines, the Honors advising process will commence soon.

Please see the dates below for information relevant to your classification by hours, earned as of August 2023. We recommend that you check your “My Enrollment” tab on your Student Dashboard *now* and then *again* a few days before your registration date to:

- Ensure that your “Total Hours” under “My Academic Overview” is correct as that is how the Registrar’s Office assigns your classification.
- Check under “My Holds” for any current or future holds that could affect your registration on your assigned day.
- Verify your specific registration day/time under “My Registration Dates/Times.” Email honors.advising@ttu.edu immediately if you do not have a SENIOR or HONORS Time Ticket.

All Honors students can expect to receive email correspondence containing instructions on what actions to take in preparation for advising/registration. Remember to check your Clutter or Junk folders, in case our correspondence is directed there.

Appointment Scheduling Information:

*Honors advising is focused on assisting with the identification of Honors course options and strategizing completion plans for your Honors requirements. Please make arrangements to **connect with your primary major advisor** to discuss your overall degree plan.*

Honors advising appointments will be conducted in-person at McClellan Hall. Not all Honors students are required to meet with an Honors advisor, but all are welcome. If you are part of an Honors population that **is** required to meet with an Honors advisor, or would simply like to connect with an Honors advisor, please use Raider Success Hub (RSH) at success.ttu.edu, to self-schedule an appointment time.

- **Students admitted this Fall 2023 for the Honors VIP Admissions Cohort** are **required to schedule an advising appointment** with Kourtney Rodriguez. ****Please make this appointment using the Honors College VIP advising option in RSH.****
- **Honors new current/transfer Honors students** (admitted to the College for a Spring 2024 start) are **required to schedule an advising appointment** with an advisor. An Honors advising hold will be placed until the student schedules an appointment via RSH.
- **Honors students who are not making steady progress towards Honors course requirements** will be contacted and **required to schedule an advising appointment**. An Honors advising hold will be placed until the student schedules an appointment via RSH.
- **Honors students who are on track to graduate within the next academic year** are strongly encouraged, though not required, to schedule an advising appointment. No Honors advising hold should be placed.
- **Honors students who are pursuing 2+2 pre-health prerequisites and intend to complete Honors requirements on an accelerated path before application to professional schools** are strongly encouraged, though not required, to schedule an

advising appointment. No Honors advising hold should be placed. ****Please make this appointment using the Honors College 2+2 advising option in RSH.****

- **All other Honors students** are invited to make an appointment to discuss Honors-related advising questions. No Honors advising hold should be placed.

Course Planning and Registration Information:

All university classes for Spring 2024 should be loaded on [Raiderlink](#) no later than October 9th. Honors and HE+ sections offered during the spring semester will be listed in the Spring 2024 Course booklet which should be available to access [here](#) no later than October 9th. *The Honors course booklet is subject to revision as Honors sections are added, cancelled, or otherwise modified.*

Unless specified as application-based, all Honors courses will be unrestricted to any student with an Honors cohort code.

Prerequisites required for specific classes are in place as indicated by the university and the individual teaching departments.

The other exception is that sections H01, H02, and H03 of CHEM 1308 will be restricted initially so that students enrolled in the equivalent sections of CHEM 1307 this Fall 2023 have the first opportunity to enroll. Those restrictions will be removed at a later time to open any remaining seats to other Honors FIRST TIME IN COLLEGE students.

Please note that Visual Schedule Builder will not always pull in Honors course sections accurately. We recommend you use the Plan Ahead Tool in the Add/Drop classes portal or the Section Search Tool—in conjunction with the Honors Course Booklet—to build your schedule manually.

You can find a sample degree plan/course sequence for your major in the [TTU Undergraduate Catalog](#) (catalog.ttu.edu) or find course requirements in your DegreeWorks portal.

Always include your R# in any correspondence with a TTU advisor so that we can help you more efficiently.

Waitlists/Full Sections:

The Honors College no longer manages in-house waitlists for any Honors courses with the exception of the limited application-based courses. All other Honors sections will be opened at the time of registration for all students with an Honors cohort code. If a section fills, the student should add themselves to the Raiderlink waitlist for the desired section AND then immediately register for an alternate, non-Honors section of the same course OR another alternate course that would be acceptable for degree sequencing. It is imperative to register for an alternate course as soon as possible in the event that the student's name never comes up on the Raiderlink waitlist.

If a space opens in a full course and you are the next person on the Raiderlink waitlist, the Raiderlink system should send information and instructions to your TTU email address. You will have a specific window of time to take action in registering for your offered seat, so it is essential that you check your TTU email daily.

Do not contact instructors of courses for overrides. Raiderlink will track enrollments and notify waitlisted students of available seats in a fair and orderly manner. Advisors are not authorized to override the automated Raiderlink waitlist system even if a professor were to approve you for their course.

Please let us know if questions arise. You are welcome to reach out to an individual Honors advisor or to us at honors.advising@ttu.edu.

We look forward to serving you in your preparations for the Spring 2024 semester, and beyond!

~ Your Honors Advising Team

CRN	Section No.	Class Type	Days	Time	Max Enrollment.

Prerequisite: Enrollment in the Honors College or approval of the Honors Dean.

An introductory course for first-year Honors students emphasizing the development of critical thinking and oral and written communications skills through the framework of a visual and performing arts discipline.

No one can teach you to be creative. No one needs to. We are— each and every one of us— creative by virtue of being human. But we can learn to be better at creative work by understanding the creative process. Through readings, group and individual projects, and seminar discussion, you will develop a vision of the creative process, learn to identify blocks to that process, and acquire techniques for getting you unblocked. This course is not just about art but about creative thinking and habits that are applicable to all human endeavors.

HONS 3300: Honors Thesis Course #1

Instructor: Kurt Caswell | Campus: Lubbock TTU

40043	H01	Highest Honors only	n/a	n/a	n/a
CRN	Section No.	Class Type	Days	Time	Max Enrollment.

APPLICATION REQUIRED: SEE COURSE DESCRIPTION

Note: This section of HONS 3300 is for students completing an Honors Thesis, not for students involved in URS.

Prerequisite: To be admitted to the Honors thesis program, students must be enrolled in the Honors College, be in the final two semesters of their degree program and file an application for approval. Thesis courses are not offered during the summer terms. Honors students seeking an application will should contact Beth Scheckel at Beth.Scheckel@ttu.edu. The deadline to complete the application process is the first day of class each fall and spring semester. Students should begin the application process by mid-semester of the term preceding enrollment in the first thesis course. Students wanting to apply and enroll in HONS 3300-H01 for this Spring 2024 should contact Beth immediately to begin the application process.

An Honors thesis is a long formal research paper or written creative work that conforms to the journal publishing standards in a chosen field. The Honors thesis program consists of two semester-long research and writing courses, HONS 3300, followed by HONS 4300. Students do not meet in a classroom, but instead work independently, and in concert with a student-selected thesis director, and the HONS 3300/4300 instructor. The thesis director must be a Texas Tech University faculty member. With guidance, students work through a series of steps from the development of an argument to a completed thesis. In these two courses, students master the following skills: note-taking, effective outlining, integrating primary and secondary sources, document formatting, utilizing constructive feedback, argumentative and/or creative writing, and revising. Students who successfully complete an Honors thesis are eligible to will graduate from the Honors College with the distinction of Highest Honors.

HONS 3301: Feminist Philosophy

newly added

Instructor: Zara Amdur | Campus: Lubbock TTU

CRN	Section No.	Class Type	Days	Time	Max Enrollment.

NOTE: Cross-listed with PHIL 3300-001 [CRN 66968].

This class assumes that this basic tenet of feminism is true: people who identify or are identified as women are oppressed. Over the course of this semester, we will ask philosophical questions within feminism. What is feminism? What is sexism? Does sexism affect our sexual ethics? What does the oppression of women look like and how is it perpetuated? How do other aspects of one's social and political identities change gendered oppression? A key theme throughout the course will be how to make feminism responsive to the diversity of women and the differing forms of subordination each faces. In pursuing that goal, we will read and listen to a number of women, including Sandra Bartky, Marilyn Frye, Kimberlé Crenshaw, and Audre Lorde.

Prerequisite: Enrollment in the Honors College or approval from the Honors Dean.

Study of the history, development, and terminology of the fine arts, emphasizing functional relationships between disciplines in an effort to provide bases for aesthetic evaluation of specific artistic entities. May be repeated as the topic varies with permission of the Honors Dean.

This is more than an introduction to the short story genre. It's a study of the incredible emotional and creative range of the short story, including its proven ability to generate empathy and generate effects in readers. From short shorts/flash fiction (1000 words or less) to short story collections in which stories "talk" to each other novelistically, we'll consider the protean and ever-expanding range of the form. Our primary reading will be in three masters— Flannery O'Connor, James Joyce, and Ernest Hemingway— to show how contrasting styles can produce equally brilliant results

Note that this class might could also be called "Reading Short Stories." We'll learn the art of reading like a writer and come to understand the conventions that make the short story "work." We'll marvel at the ability of short stories to surprise, delight, paint pictures, draw tears, and spur memories using twenty-six letters on a handful of pages. And, in a culminating exercise of critical and creative writing activities, we will begin to practice "surprise and delight" on our own readers, and ourselves.

Music is, and always has been, pervasive in human culture. Moreover, there are few individuals who lack a strong connection to something musical, be it a favorite band, a meaningful song, or a melody that we hope to never hear again. This course will introduce students to the social, physiological, and psychological reasons behind these connections, shuttling back and forth between the universal and personal manifestations of music and our minds.

Note: This section of HONS 4300 is for students completing an Honors Thesis, not for students involved in URS. Upon graded completion of HONS 3300-H01, students will receive a permit for HONS 4300-H01. Contact Beth Scheckel with questions or concerns: Beth.Scheckel@ttu.edu.

Prerequisite: Completion of HONS 3300-H01

An Honors thesis is a long formal research paper or written creative work that conforms to the journal publishing standards in a chosen field. The Honors thesis program consists of two semester-long research and writing courses, HONS 3300, followed by HONS 4300. Students do not meet in a classroom, but instead work independently, and in concert with a student-selected thesis director, and the HONS 3300/4300 instructor. The thesis director must be a Texas Tech University faculty member. With guidance, students work through a series of steps from the development of an argument to a completed thesis. In these two courses, students master the following skills: note-taking, effective outlining, integrating primary and secondary sources, document formatting, utilizing constructive feedback, argumentative and/or creative writing, and revising. This second semester of Honors thesis culminates with Thesis Day, a celebration in which each student gives a brief presentation about their project (*spring semester only*). Students who successfully complete an Honors thesis will graduate from the Honors College with the distinction of Highest Honors.

Provides the opportunity for development and enhancement of skills that are essential to a well-rounded education as honors students from various disciplines meet to complement and augment each other.

Since 2008, The Marvel Cinematic Universe Films are the template for the modern blockbuster. Marvel Studios created a shared universe that includes feature films, network television, and several streaming series. The MCU films have generated over four billion domestically showing just how iconic Marvel characters are. *Avengers Endgame* is one of the top grossing films of all time. Long before Disney bought the company in 2009, Marvel had a long history dating back to the pulp publishing industry of the nineteen thirties when their name was Timely Comics. In the early nineteen sixties, Stan Lee, Jack Kirby, Steve Ditko, and others created the Marvel Universe that is so iconic today. This HONS Summit studies the history of Marvel, key artists and writers, Marvel films and television (including Marvel Studios and the Cinematic Universe) and some of the important stories in the Marvel pantheon. As a class, we will discuss why so many of Marvel's 5,000+ characters have become part of our modern-day mythology. Marvel is one of the longest running shared universes in history and this class celebrates that. This course is reading intensive and has mature content.

Is permaculture legit? When is an agave not just an agave, but a cultural and geographical marker? How did hot peppers go from Mexico and what is now New Mexico to every corner of the globe? How did chia seeds emerge from the Sonoran Desert to become a global superfood? In what ways were the Great Plains a "breadbasket"—before wheat was ever planted there? What can food from the desert teach us about a food desert?

In this course, we will go on a journey to discover what foodways can teach us about human and natural migrations, resilience, and living well in our time and place. Through site visits in the Great Plains and United States Southwest, primary research, and other fieldwork, you will gain a greater sense of historical, indigenous, and modern foodways—and a new understanding of our place in the natural world.

Dangerous ship crossings, unknown and hostile terrain, starvation, bad weather, bandits, and no communication with loved ones for months or years. The nineteenth-century botanists, biologists, and ornithologists were the original Indiana Jones in their quest to discover new plant and animal species. They were courageous and determined, just as were the illustrators traveling with them, who produced some of the most important and often lovely scientific records of the day. In this Honors College seminar experience, we will travel with them, too, as we learn by illustrating plants and birds ourselves, using many of their same techniques. We will paint and draw and yes, go out into the field a time or two, but do not be afraid! You do not have to have prior skill or experience in either to be successful in their course.

Did you know that some of the most dangerous exploration in the history was in search of plants? Nineteenth century plant hunters and illustrators braved sea voyages, rides on pack mules, inclement weather, regional wars, bandits, sickness, and even death to bring you that Schlumbergera you gave your mother for Christmas. Take a walk on the wild side and learn the surprising stories behind some familiar plants as we practice the art of botanical illustration. This course is different from the FYE class in that it places more focus on learning about processes associated with craft and creativity, whereas the FYE course has more of a focus on the biography of Taylor Swift and ideas about identity and feminism.

Both examine her discography, but for the upper-level class I'd like to spend more time in deeper analysis of poetic devices and identifying elements of music theory and structure in her work.

The final projects in the two courses are different as well- the FYE course requires students to write an album review for the midterm and create a work of art based on an era of their life (emphasizing the identity aspect of the course). The Songbook course requires students to create their own collection of poems, stories, or songs applying what we've learned about the craft of these arts.

65468	H08	4000-lvl Seminar	R	4:00pm-6:50pm	24
CRN	Section No.	Class Type	Days	Time	Max Enrollment.

Provides the opportunity for development and enhancement of skills that are essential to a well-rounded education as honors students from various disciplines meet to complement and augment each other.

The horror genre is consistently one of the most widespread types of storytelling whether in film, literature, sequential art, television, or videogames. Long-ignored writers like H.P. Lovecraft are now in the Library of America series and there is renewed interest in the works of Arthur Machen, Clark Ashton Smith, and Robert W. Chambers. Stephen King is one of the most successful and widely read writers in history. Horror films still make money year after year and television shows like *American Horror Story* are among the most popular. With so much real horror in the world, why do we still love the horror genre? This course takes a multidisciplinary approach to studying horror. It includes examining early cosmic literary horror, novel to film adaptation, horror related music, and how horror is used in sequential art. In addition, we will study the history of forensic science in true crime and try to understand how certain cases were solved or remain unsolved. We will also look at the history of medicine and certain historically associated horrors. This course tries to answer the questions: What purpose does horror serve in our lives and why do we like being scared? Students will have the opportunity to make their own horror film as their final project. This course has mature content. Please note this course is reading intensive.

Provides the opportunity for development and enhancement of skills that are essential to a well-rounded education as honors students from various disciplines meet to complement and augment each other.

This course seeks to chart the historical and political development of the Arab Israeli conflict by analyzing key events and controversies which have shaped the struggle. The course takes an in depth look at the peoples involved, the changing situations on the ground and the ramifications the conflict has for the world beyond the regional borders. The course divides the conflict into four main stages. The first is a proto-nationalist stage that examines the Zionist and Arab nationalist movements as they grew from ideologies to full-fledged political entities from the 1880s to 1917. The second stage 1917-1948, from the Balfour declaration to the creation of the state of Israel, sees two nationalist movements competing for the same land. The third stage, from 1948-1987, can be understood as a state against state conflict which sees the state of Israel engaged in a conflict with other nations. The fourth stage, identified as Israel against political Islam, shows the conflict being waged not only between Israel and other nation states, but against armed Islamic political movements such as Hamas, Hezbollah, and Islamic Jihad. Time is also dedicated to broader ethical issues of academic and community representations of the Arab Israeli conflict, and the nature of scholarly and community authority.

Introduction to personal finance, including goal setting, cash management, credit, insurance, taxes, housing, investment alternatives, and retirement plans. To better understand how individuals and families make financial decisions to meet their goals, reading assignments and discussion will focus on topics that are both relevant and timely. Class time will be spent collaboratively learning about the financial marketplace and behavioral tendencies, which form the environment in which people make financial decisions. Current issues such as financial literacy, time preferences, investment in human capital, behavioral finance, and generational differences will be explored. Discussion will arise from the readings assigned that focus on current issues, often found in popular press such as the Wall Street Journal, USA Today, and Kiplinger's Magazine. It will also come from interesting and sometimes controversial new research related to how and why people think about money as they do. We all know that our financial decisions are not always rational, as assumed in economic theory. However, behavior research from economic, psychological, and socio-cultural perspectives can inform us regarding financial decision making.

SPRING 2024 HONORS ENHANCED COURSE [HE+] SECTIONS

HE+ courses are a relatively new way to earn Honors credit! In HE+ courses, you'll experience an honors enrichment activity with your faculty member and other Honors students, in regular TTU courses. Get ready for many more Honors opportunities to earn Honors credit – in every major – even at the upper division!

If an Honors student enrolls in a designated HE+ section and successfully completes it (earning a grade of B- or better in the class) and successfully completes the non-graded Honors enrichment activity, that student will earn the number of *general* Honors credits associated with the credit assigned to the course. For example: with HIST 2301-001, the Honors student would earn 3 hours of Honors credit.

PLEASE NOTE that HE+ sections, regardless of level, only fulfill general Honors course requirements (and do not fulfill the 3000-level and 4000-level seminar requirements).

With designated HE+ sections, there will be a HONS 0001 stand-alone no-credit course associated with it. The student would enroll in the HONS 0001 section associated with the HE+ lecture section in order to be a part of the HE+ initiative.

***** The HONS 0001 sections will be built and loaded in Raiderlink soon. As well, HE+ sections currently built are noted in this booklet in the pages following this one. We expect more HE+ sections to be added in the coming days – be sure to access updated versions of this booklet for newly added courses. *****

The Honors College will contact all Honors students enrolled in each of the HE+ lecture sections with instructions about adding the HONS 0001 no-credit course to your schedule.
