

Resource Enrichment of Terrestrial Ecosystems

Philip A. Fay

Research Ecologist

USDA Grassland Soil and Water Research Laboratory

October 31, 2018

4:00 PM

Biology 101

Information: Phil is a physiological and ecosystem ecologist who is interested in the influence of resource variability and climate on terrestrial ecosystem processes across numerous scales. If you are interested in meeting with Phil while he is in Lubbock (10/30 – 11/1), please contact Nick Smith (nick.smith@ttu.edu).
