REVISED CHECKLIST OF NORTH AMERICAN MAMMALS NORTH OF MEXICO

J. KNOX JONES, JR., DILFORD C. CARTER, AND
HUGH H. GENOWAYS

Faunal checklists provide useful ready references for many kinds of endeavors, both in the laboratory and in the field, and are particularly helpful to students. Since publication two years ago of our "Checklist of North American mammals north of Mexico" (Jones *et al.*, 1973), demand for that list has exceeded the supply set aside for general distribution; additionally, published systematic studies in the interval necessitate several changes in the list. Principally for these reasons, we here present a revised checklist of mammalian species occurring in the Nearctic to the north of Mexico. As in this and similar earlier compilations, a single vernacular name applies to all populations of a species. There is, however, no formal system of vernacular nomenclature for mammals. Rather, such names gain acceptance through usage and this list attempts to reflect those currently in use.

In this revision, we have attempted to include all species of Recent mammals in North America north of Mexico as recognized at the close of 1974, based on the published literature. As a result, some specific and generic names differ from those used in the previous list, and a few species have been added or deleted. Also, a few vernacular epithets have been changed or corrected, principally on the suggestion of colleagues in the field. Recent systematic studies reflected in the current list include those of Wilson (1973), who regarded *Perognathus merriami* as a synonym of *P. flavus*, Lowery (1974), who relegated *Microtus ludovicianus* to subspecific status under *M. ochrogaster*, Sutton and Nadler (1974), who elevated three chipmunks to specific status, and the recognition of *Macrotus cali-*

fornicus as a species distinct from *M. waterhousii* by Davis and Baker (1974). Furthermore, Williams *et al.* (1970) provided reasons for regarding *Idionycteris* as a genus distinct from *Plecotus*, and Sokolov's (1973) study suggests return to the use of *Lutra* as the generic name for North American otters.

Johnson's (1973) recognition of *Arborimus* as a genus distinct from *Phenacomys* is not here admitted, principally because it is not clear in his discussion as to which species of these voles he would apply the former name; certainly it applies to *P. longicaudus*, probably to *P. sylvicola*, and possibly to *P. albipes*. Despite Schmidley's (1973) conclusion that *Peromyscus comanche* should be considered a subspecies of *P. truei*, a more recent study by Johnson and Packard (1974) seems to confirm its marginal specific status. Our listing of species of Cetacea, as in the first checklist, follows closely that proposed by Rice and Scheffer (1968).

Various species of mammals not native to North America have been introduced onto the continent over the years. We have, in this compilation, listed nine such species (identified by an asterisk) that currently occur in the wild state in numbers sufficient to justify their inclusion. Other species, such as the blackbuck (*Antelope cervicapra*), axis deer (*Cervus axis*), sika deer (*Cervus nippon*), ibex (*Capra ibex*), and oryx (*Oryx gazella*), now occur outside confinement, and some of these likely will be included in subsequent checklists.

We are grateful to a number of colleagues for comments on the first checklist, some of which were the basis for changes incorporated herein, or for scrutiny of the revised manuscript. In this regard, we would especially acknowledge Robert J. Baker, Frank A. W. Banfield, Charles O. Handley, Jr., Clyde Jones, and Karl F. Koopman.

ORDER MARSUPIALIA—Marsupials

FAMILY DIDELPHIDAE—New World Opossums

Didelphis virginiana Virginia Opossum

ORDER INSECTIVORA—Insectivores

FAMILY SORICIDAE—Shrews

Sorex cinereus Masked Shrew
Sorex lyelli Mt. Lyell Shrew
Sorex preblei Preble's Shrew
Sorex pribilofensis Pribilof Shrew
Sorex jacksoni St. Lawrence Island Shrew
Sorex longirostris Southeastern Shrew
Sorex vagrans Vagrant Shrew

<i>Sorex obscurus</i>	Dusky Shrew
<i>Sorex pacificus</i>	Pacific Shrew
<i>Sorex ornatus</i>	Ornate Shrew
<i>Sorex tenellus</i>	Inyo Shrew
<i>Sorex trigonirostris</i>	Ashland Shrew
<i>Sorex nanus</i>	Dwarf Shrew

FAMILY PHYLLOSTOMATIDAE—Phyllostomatid Bats

<i>Macrotus californicus</i>	California Leaf-nosed Bat
<i>Choeronycteris mexicana</i> . . .	Long-tongued Bat
<i>Leptonycteris nivalis</i>	Mexican Long-nosed Bat
<i>Leptonycteris sanborni</i>	Sanborn's Long-nosed Bat
<i>Diphylla ecaudata</i>	Hairy-legged Vampire

FAMILY VESPERTILIONIDAE—Vespertilionid Bats

<i>Myotis lucifugus</i>	Little Brown Myotis
<i>Myotis yumanensis</i>	Yuma Myotis
<i>Myotis austroriparius</i>	Southeastern Myotis
<i>Myotis grisescens</i>	Gray Myotis
<i>Myotis velifer</i>	Cave Myotis
<i>Myotis keenii</i>	Keen's Myotis
<i>Myotis evotis</i>	Long-eared Myotis
<i>Myotis auriculus</i>	Southwestern Myotis
<i>Myotis thysanodes</i>	Fringed Myotis
<i>Myotis sodalis</i>	Indiana or Social Myotis
<i>Myotis volans</i>	Long-legged Myotis
<i>Myotis californicus</i>	California Myotis
<i>Myotis leibii</i>	Small-footed Myotis
<i>Lasionycteris noctivagans</i>	Silver-haired Bat
<i>Pipistrellus hesperus</i>	Western Pipistrelle
<i>Pipistrellus subflavus</i>	Eastern Pipistrelle
<i>Eptesicus fuscus</i>	Big Brown Bat
<i>Lasiurus borealis</i>	Red Bat
<i>Lasiurus seminolus</i>	Seminole Bat
<i>Lasiurus cinereus</i>	Hoary Bat
<i>Lasiurus intermedius</i>	Northern Yellow Bat
<i>Lasiurus ega</i>	Southern Yellow Bat
<i>Nycticeius humeralis</i>	Evening Bat
<i>Euderma maculatum</i>	Spotted Bat
<i>Plecotus townsendii</i>	Townsend's Big-eared Bat
<i>Plecotus rafinesquii</i>	Rafinesque's Big-eared Bat
<i>Idionycteris phyllotis</i>	Allen's Big-eared Bat
<i>Antrozous pallidus</i>	Pallid Bat

FAMILY MOLOSSIDAE—Molossid Bats

<i>Tadarida brasiliensis</i>	Brazilian Free-tailed Bat
<i>Tadarida femorosacca</i>	Pocketed Free-tailed Bat
<i>Tadarida macrotis</i>	Big Free-tailed Bat
<i>Eumops perotis</i>	Western Mastiff Bat
<i>Eumops underwoodi</i>	Underwood's Mastiff Bat
<i>Eumops glaucinus</i>	Wagner's Mastiff Bat

ORDER EDENTATA—Edentates

FAMILY DASYPODIDAE—Armadillos

<i>Dasyopus novemcinctus</i>	Nine-banded Armadillo

PUBLICATIONS OF THE MUSEUM
TEXAS TECH UNIVERSITY

Two publications of The Museum of Texas Tech University are issued under the auspices of the Dean of The Graduate School and Director of Academic Publications, and in cooperation with the International Center for Arid and Semi-Arid Land Studies. Shorter research papers are published as Occasional Papers, whereas longer contributions appear as Special Publications. Both are numbered separately and published on an irregular basis.

Institutional libraries interested in exchanging publications may obtain the Occasional Papers and Special Publications by addressing the Exchange Librarian, Texas Tech University, Lubbock, Texas 79409. Individuals may purchase separate numbers of the Occasional Papers for 50 cents each through the Exchange Librarian. Remittance must be enclosed with request. Copies of the "Revised checklist of North American mammals north of Mexico" (Jones *et al.*, 1975, Occas. Papers Mus., Texas Tech Univ., 28: 1-14) are available at 30 cents each in orders of 10 or more.
