SELF-GUIDED TOUR.

Welcome to Texas Tech University, a campus marked by Spanish Renaissance architecture, steeped in tradition and known for gracious West Texas hospitality. Use this walking tour as your guide and enjoy your visit!

Begin your tour at West Hall, home to the Visitors Center, Office of Admissions and Student Financial Center—a one-stop shop for prospective students. The Broadway Entry Gates, fountains and Seal mark the main entrance to campus.

**SEAL OF TEXAS TECH.** The 12-foot granite seal is a favorite photo spot on graduation day.

**BROADWAY AND UNIVERSITY.** Lively student hangouts and spirit shops on the strip east of campus offer the fun shopping and dining found only in a true college town.

Walk south across the street from West Hall to Park Place, an installation in our award-winning public art collection. The sculptures by nationally known artist and Lubbock native Glenna Goodacre are placed near the College of Human Sciences because they depict the stages of human life.

**COLLEGE OF HUMAN SCIENCES** One of the largest of its kind in the nation, the college offers diverse programs like Early Childhood Education, Personal Financial Planning and Fashion Design.

The Administration Building, Texas Tech’s original structure stands west of Human Sciences and houses offices for the university and system leadership. The building features two bell towers—one for the Victory Bells, which ring after every Texas Tech athletic victory, and the other for the Carillon bells, which play during special events like the holiday Carol of Lights.

**THE HONORABLE PRESTON SMITH.** The larger-than-life statue of Preston Smith depicts the Texas Tech graduate who served as governor of Texas 1968-1972. He was instrumental in opening our schools of law and medicine.

**DOUBLE T BENCH.** Rest on the bench, even though tradition holds that only upperclassmen can sit there!

Walk south from the Administration Building to the SUB, the Student Union Building, where Red Raiders meet to eat, study and socialize. A bank, post office, theatre, food court and meeting rooms make the SUB one of the most popular spots on campus. Take a break at Starbucks Café or buy a t-shirt at the Barnes & Noble Bookstore.

**STUDENT INVOLVEMENT.** The Center for Campus Life and Student Activities, both in the SUB, oversee more than 500 service, academic, professional, social and religious groups.

**SCHOOL OF MUSIC** Connected to the SUB, the school offers majors in performance, composition, theory and teacher certification. Extracurricular ensembles like our 400-member Goin’ Band from Raiderland are open to all students.

**HONORS COLLEGE** McClellan Hall houses the college, which offers specialized courses, undergraduate research, early registration and a residence hall community in addition to outstanding instruction from expert faculty.

**COLLEGE OF VISUAL AND PERFORMING ARTS** The college fosters Grammy-winning musicians, renowned artists and Broadway actors. It’s one of only two colleges in Texas to offer all the traditional theatre arts degrees.

The courtyard between the SUB and the University Library displays more unique public art. Read Reader, a figure made entirely of cast books, stands at the north end. Moving south, you’ll find the Tornado of Ideas, with creative figures meant to provoke conversation. The silver sphere, Comma, blends art and science interactively. Sample the sound of the sun by pushing a knob on the sculpture.

**UNIVERSITY LIBRARY** Explore the third largest library in Texas with more than two million volumes.

**SOUTHWEST COLLECTIONS/SPECIAL COLLECTIONS LIBRARY** This historical research center houses, among others things, the Vietnam Collection—the largest collection of material on the Vietnam Conflict outside the federal government.

Just behind the University Library you’ll find buildings that make up the College of Agricultural Sciences and Natural Resources—CASNR. Known for its student-friendly faculty and progressive programs, the college consistently produces outstanding student leaders including the numerous world champion teams.

**DAIRY BARN** In our early days, this original campus building boarded some students’ cows and chickens, whose milk and eggs were sold to help pay tuition.

**CHARLES E. MAEDGEN THEATRE** The Mainstage here annually hosts seasons of major productions, both dramatic and musical. Auditions are open to all students.

Continue west around the Foreign Language Building and enter the courtyard of the English, Philosophy and Education Complex-EPE, one of our newest academic buildings. The centerpiece of the space is Headwaters, a sculpture court and fountain representing a blend of ideas based in English, philosophy and education.

**SCHOOL OF ART** Galleries and studios in the school periodically display student and faculty works and are open to the public.

**COLLEGE OF EDUCATION** The north building in the EPE complex houses the college, some unique facilities like the Sowell Center for Visual Impairment and the Burkhart Center for Autism Education.

Walk through the courtyard, continuing west. You’ll pass the College of Architecture on your way to Flint Avenue. Once you reach Flint, you’ll see the western-most part of our main campus, which you are welcome to explore further. The School of Law, the United Spirit Arena, the Robert H. Ewalt Student Recreation Center and the Animal and Food Sciences Building are among the sites to see.

**COLLEGE OF ARCHITECTURE** Students learn to balance creative and technical abilities as they build impressive portfolios from their very first courses as freshmen.

**RAWL'S COLLEGE OF BUSINESS ADMINISTRATION** A comprehensive, research-based business school, the college prepares students with internships and a career management program that has placed more than 85% of recent grads. Challenging programs decrease the time needed to earn an MBA.

**ANIMAL AND FOOD SCIENCES BUILDING** This building is among the many state-of-the-art facilities in CASNR, which include a beef cattle center, research farm, food microbiology lab and Equestrian Center.

**ROBERT H. EWALT STUDENT REC CENTER** Feel free to head inside and tour the Robert H. Ewalt TTU Rec Center. The 242,000 sq. ft. facility first opened in the spring of 1980 and has been added onto several times through the years. Experience the 53 ft. high climbing wall, play basketball on over 5 different courts, and take a relaxing float through the lazy river – one of the longest lazy rivers on a college campus. A variety of intramural sports and club sports are also offered through the Rec Center including flag football, water polo, ultimate frisbee, and fencing.

Walk north on Flint to Main Street. Turn east to make your way back to the center of campus. You’ll pass the Student Wellness Center - the SWC, which houses a clinic, pharmacy, wellness programs and the Student Counseling Center. Beyond the SWC, walk through the courtyard of the Carpenter Wells Residence Hall Complex, which offers apartment-style housing. You’ll pass the bronze horse Wind River and the Rawls College of Business. Walk under the clock tower and continue toward Square Spiral Arch, all additional installations in the public art collection.

You’ll see both the Biology and Experimental Sciences buildings before you pass under the archways of the Mathematics Building. Continue down the walkway toward the flagpoles and fountain that mark Memorial Circle, the heart of campus. In 1948, the Texas Tech War Veterans Association dedicated the circle to all Texas Tech students who served in World War II. The Edward E. Whitacre Jr. College of Engineering and the College of Arts and Sciences are both north of Memorial Circle.
