The Texas 4-H Livestock Ambassador Program will equip youth with the knowledge and skills to become ambassadors for Texas AgriLife Extension Service, the Texas 4-H program and animal science as it relates to livestock projects.

The short course will be college level animal science curriculum. It will take an in-depth look at sheep, goat, swine, and cattle production in Texas and how it relates to the show ring.

The students will be required to log at least 20 hours of service annually helping novice 4-H’ers with their livestock project and educating fellow 4-H’ers. The program is designed for youth wanting to enhance their livestock production knowledge and leadership skills.

A 4-H Livestock Ambassador is an outstanding student that has completed the 4-H Livestock Ambassador Short Course and is willing to assist 4-H families in their counties with their livestock projects.

Extension programs serve people of all ages regardless of socioeconomic level, race, color, sex, religion, disability or national origin. The Texas A&M University System, U.S. Department of Agriculture, and the County Commissioners Courts of Texas Cooperating. A member of the Texas A&M University System and its statewide Agriculture Program.
