A pajama line directed toward the whimsical and adventurous child, encouraging them to read. Included with the purchase is a pamphlet displaying unique children who rock. Inspiration for this month’s theme box is the book *The Little Prince*, by Antoine de Saint-Exupéry.
This brochure was created to honor the overlooked areas of Texas. From the Devil’s River to the great Big Bend Ranch State Park, these two locations are classified as International Dark Skies for a reason with other unique qualities. With the app, guests are encouraged to look deeper into the heart of Texas and explore all it has to offer.
The park's name comes from the 100 mile long big bend in the Rio Grande after it forms the Texas-Chihuahua-Coahuila border. At over 1,250 square miles, Big Bend is approximately the size of Rhode Island. It is so remote that it remains the least visited of the National Parks in the United States.

**Iconocline:**

- **Location:** Far west Texas in the high desert setting of the northern Chihuahuan Desert.
- **Animals:** 48 mammal species including: 16 species of bats, 30 types of snakes, and over 300 bird species.
- **Plants:** Four major plant communities: Riparian zones, moist desert scrub, desert grassland, open juniper woodland. Check out the Ocotillo.

**Big Bend State Park:**

A yucca plant overlooks the Rio Grande in Big Bend Ranch State Park, located in far West Texas, on the U.S.-Mexico border. The park is Texas's biggest state park and offers 238 miles of multiuser trails for visitors to explore.
Dracula
