College of Arts and Sciences
Committee for Academic Programs (ASCAP)
2019-2020
Procedures for Curriculum Changes

Committee Members and Contact Information
Dahee Bak  Political Science  Dahee.Bak@ttu.edu
David Lamp  Physics  David.Lamp@ttu.edu
Anita McChesney  CMLL  Anita.McChesney@ttu.edu
Jeff Mosher  History  Jeff.Mosher@ttu.edu
David Ray  Biology  David.A.Ray@ttu.edu
Eleanor von Ende  Economics  Eleanor.vonEnde@ttu.edu
Apryl Lewis  English, Student Member  Apryl.Lewis@ttu.edu
David Roach (Chair)  Associate Dean  David.Roach@ttu.edu

ASCAP Meeting Dates.  ASCAP meetings are typically scheduled every month during the academic year. All meetings will begin promptly at 3:00 p.m. in Holden Hall 129.

Submitting Course Proposals for ASCAP Review

1. Course Proposals for ASCAP review must be submitted electronically through the Curriculog system (https://ttu.curriculog.com/). Curriculog training is coordinated by Kristi.Fonseca-Williams@ttu.edu, 806.834.1774.

2. Proposals in the Curriculog system must reach the Dean’s office at least one week before the scheduled ASCAP meeting. Proposals must be accompanied by a complete syllabus that includes:
   a. Statements of student learning outcomes and assessments.
   b. Academic integrity statement.
   d. A schedule of content coverage for the semester by week.
3. Proposals to change the Delivery Modality of existing courses to be offered at a distance
must follow procedures outlined in OP 36.01
(www.depts.ttu.edu/opmanual/OP36.01.pdf) using the appropriate application form.

4. State CIP Codes can be found at: www.txhigheradata.org/Interactive/CIP/

**Course Proposal Information**

1. *A previous course number cannot be used for a period of 10 years except for reinstatement of the same course.* When in doubt about the prior use of a number, old
catalogs, the catalog office, or institutional research at TTU can be helpful resources.

2. **Course Numbers.** The first digit of the course number for undergraduate courses is
traditionally associated with the academic year in which students normally take the
course (i.e., 1=freshman, 2=sophomore, etc.). The first digit is essentially arbitrary for
graduate courses, although some units reserve 5 for master’s courses and 6 for doctoral
courses.

   The second digit indicates the number of semester credit hours the course generates (e.g.,
MATH 1351 earns 3 credit hours; MATH 1550 earns 5 credit hours). The third and
fourth digits are used for sequencing within the department’s inventory as deemed
appropriate by the faculty.

3. **Individual study and research courses** should state hours as in this example: ENGL 4300
Individual Studies in English (3). Courses that provide variable credit per enrollment
should list hours as in this example: ENTX 4300 Undergraduate Research in
Environmental Toxicology (V1-3).

4. **Activity Type.** A course can only have ONE primary activity type for credit. A
secondary non-credit activity type can be added (e.g. a non-credit discussion, recitation,
or lab).

5. **Variable Credit.** Variable credit, usually 1-3 or 1-6, is normally reserved for research,
readings, and some special topics courses.

6. **Academic Justification.** Explain, briefly and precisely, why the course is needed.
Describe curricular needs, student demand, disciplinary developments, service to other
programs, etc. This should be a compelling statement. Simple expressions such as
“needed for students” or “an interest of new faculty” will need to be explained.

7. **Resource Justification.** Part of the committee’s charge is to ensure against a proliferation
of courses beyond the ability of the academic unit to offer them. For each proposal to
add a new course to your curriculum, please be prepared to address how the particular
course and the overall curriculum will be supported by existing faculty and resources (or
new faculty and new resources). Please indicate if you are deleting old courses to make
room for the new courses.

8. **Challenges and Objections.** If a Department Chair wishes to review and subsequently question a proposal submitted by another department (internal or external to the College of Arts and Sciences), he/she should contact the Chair of the proposing unit. Associate Dean David Roach should be notified of questions, objections, or intentions to challenge.

9. **Cooperative proposals** involving two or more academic units must include a memorandum of understanding to substantiate the cooperative aspects of the course. This memorandum must be co-signed by the appropriate Department Chair and be made part of the original proposal.

10. **General Education Requirements for Arts and Sciences.** Any proposed course changes or revisions to catalog statements that would affect College of Arts and Sciences General Education requirements must be submitted to the Associate Dean for Academic Programs (David.Roach@ttu.edu) and approved by the Arts and Sciences General Education Review committee (ASGER).

---

**Core Curriculum and Multicultural Proposals**

1. All Core and Multicultural course proposals must be submitted electronically through the Curriculog system (https://ttu.curriculog.com/) and must reach the Dean’s office at least one week before the scheduled ASCAP meeting.

2. All Core and Multicultural Course proposals must use required procedures found on the Provost’s webpage.
   b. **How to Propose a Course:** https://www.depts.ttu.edu/provost/curriculum/core-curriculum/developing-syllabi.php.
   c. **Information for Chairs and Directors:**
   d. **Timeline:** In view of the timeline shared from the Provost’s Office, all new Core proposals must be approved by the May ASCAP meeting to be considered at subsequent review levels in the fall before the Provost’s Office submits approved proposals to THECB in January.

3. If Core or Multicultural Course proposals are approved by ASCAP, the A&S Dean’s office will submit them to the Core Curriculum Committee for review. Proposals must come to the Core Curriculum Committee from the office of the Dean of the originating college, with an indication of the Dean’s approval.
Certificate, Program, and Distance Program Proposals

- Please check Curriculog for requirements and information regarding development of certificate, program, and distance program proposals. You can also contact Associate Dean David Roach.

ASCAP Meetings

1. ASCAP meetings will convene for 1 hour, with an additional 45-30 minutes reserved for the Committee’s closed session.

2. The agenda for each ASCAP meeting will be distributed via email the week prior to the meeting date. The Department Chair or a Chair designated faculty member of the proposing unit must represent each proposal at the meeting where the proposal is an agenda item. Committee will table any proposal for which a faculty representative from the sending unit is not present. ASCAP members cannot serve as department representatives, nor do they vote on recommendations pertaining to courses from their home units.

3. Minutes of each meeting with ASCAP recommendations for proposals will be distributed to Department Chairs via email following the meeting. The Committee Chairperson will process approved proposals for continuance through the system, and will discuss with Department Chairs the issues pertaining to proposals requiring substantial revisions or not approved by ASCAP.

4. ASCAP can accept no more than 10 proposals at a time from the same unit. Changes to programs involving more than 10 course proposals should be planned in close consultation with Associate Dean David Roach to optimize timing of proposal submissions.

5. ASCAP approval is a positive recommendation of the proposal to the next level of consideration. Final approval of curricular proposals, if granted, comes from the Provost. Notifications of final approval for course proposals are sent directly from the Office of the Registrar to Department Chairs.
