

Links, Links, and more Links! How to view what classes are linked together and help students register!

If you have questions regarding what sections are linked together, you can use the Linked Section Search Tool to help. Start by logging into Raiderlink and looking under your Faculty & Advisor tabs. To the right of the page is a list of helpful links. Use the Linked Section Search Tool to help advise students and check your work!

1. Click on the Linked Section Search Tool

2. To view linked course details, choose a term, a subject, and a course, then click on Display Linked Courses button. Linked courses need to be registered together, click the + symbol to expand the listing of associated sections.
