

Khare Awarded 3M Non-tenured Faculty Grant

Dr. Rajesh Khare, an Assistant Professor in Chemical Engineering Department, has won the 3M Non-tenured Faculty Grant for 2006. Dr. Khare was one of the 27 awardees selected by 3M researchers this year. The award is for supporting Dr. Khare's research in the area of multiscale modeling. Dr. Khare's research group uses the techniques of multiscale modeling to develop fundamental understanding of physical and chemical processes in the areas of nanofluidics, biolubrication, polymer thin films and biofuels.
