RE: August 2023 Diagnostic Exam Schedule

The Diagnostic Exam Schedule for August 2023 is as follows:

Monday, August 21, 2023

9:00 am	Analytical Chemistry (100 minutes)	CHEM 049
1:00 pm	Inorganic Chemistry (120 minutes)	CHEM 049
	Biochemistry (ACS Exam) (120 minutes)	CHEM 049
5:00 pm	Physical Chemistry	CHEM 049

Tuesday, August 22, 2023

9:00 am	Organic Chemistry (120 minutes)	CHEM 049
	Biological Chemistry (120 minutes)	CHEM 049

Unless noted, students have three hours to complete exams**

NOTE: All new incoming Chemistry graduate students, domestic and international, must take the diagnostic exams at these times. An entering student may be exempted from the diagnostic exam requirement if they provide GRE score reports showing a general GRE V+Q score of at least 1100 plus a subject GRE score on the Chemistry exam of 80th percentile (or for those students specializing in biochemistry, a score of 80th percentile on the GRE Biochemistry, Cell and Molecular biology exam). This exemption is not automatic and must be approved by the Graduate Affairs Office prior to the first scheduled diagnostic test.
