

63rd Annual Southwest Regional Meeting of the American Chemical Society
"Fueling the Future"
November 4-7, 2007

Dear Prospective Exhibitor,

You are invited to exhibit your company/organization at the 63rd Annual Southwest Regional Meeting of the American Chemical Society, November 4-7 in the Holiday Inn Park Plaza, Lubbock, TX.

The southwest regional meeting (SWRM) brings together a diverse group of scientists and educators from academia, industry and government laboratories. We anticipate an attendance of 600-700 for the conference duration. The SWRM website can be located at:
<http://www.depts.ttu.edu/chemistry/swrm07/>

There are 10'x10' table spaces available to exhibitors. Each space will have AC power (extension cords and power strips are available, see attached form). Line internet can be purchased separately for internet-demanding exhibits (the venue has wireless internet for less-demanding applications). The 10'x10' spaces are located centrally to the conference, with direct access from the meeting rooms, poster sessions, and lunch area. In addition, there are opportunities for individual vendors to sponsor coffee breaks, which will be located near the sponsor's booth.

The exhibitor fee for commercial vendors is \$600 and includes two complimentary registrations. The fee for academic institutions is \$300 and includes one registration. The deadline for exhibitor registration is 9/1/2007. A list of exhibitors will be published on the meeting website in advance.

Please find enclosed a registration/contract form, the exposition floor plan showing table/booth numbers, as well as exhibitor request forms from the venue.

We look forward to your response.

Sincerely,

Dimitri Pappas, Ph.D.
