SERVE IN
VIETNAM
2019
SUMMER PROGRAM

ACADEMIC INFORMATION:

Majors: CECE
This program provides hands-on experience with water and environmental issues, particularly related to development. Students will learn the practical skills to be an active agent of change and social justice. Study the many international efforts in history, learn from these efforts and use them to develop a personal ethic of service, advocacy and civic engagement. Work with local NGOs that are focused in different areas of development, disaster mitigation, women’s empowerment, and research - all of which are working in the environmental space. Land Use, Land Rights, Development Policy, and Water Management will play a role.

Academic Credit
Environment Science and Sustainable Development – CE 4000 (3 credits)
Bootcamp Vietnamese Language – (1 credit)
IPSL Online Introduction to COSA – SOC 2 --- (3 credits)

*GPA 2.5 minimum
