Study IE 2324 Engineering Economic Analysis in a unique traveling program.
Guided by Leon Shturman, students will begin their program in Malaga, Spain, and continue on to Tangier, Morocco, before ending up in Lisbon, Portugal. Students will have the opportunity to examine other countries' engineering practices while completing an engineering course with a TTU faculty member. Additional visits to Seville, Granada, and Sintra are included in the program.

**WHAT'S INCLUDED**
- Housing
- Transportation
- Orientation
- Airport Pick Up
- Cultural Activities, visits to Seville, Granada, and Sintra
