## Employer Resources

### RECRUITING ENGINEERING STUDENTS

As an engineering company recruiting at Texas Tech, we want the process to be as easy as possible! Engineering recruitment efforts are coordinated through one location, the Engineering Opportunities Center, for engineering employers, students, and alumni. You can find all you need online through JobGrid at [www.TTUeoc.com](http://www.TTUeoc.com).

#### Job Grid allows you to:

1. Review Engineering Student Resumes
2. Register for Engineering Events
3. Post Co-op, Intern & Full-time Engineering Jobs
4. Set-up Engineering Interviews
5. Set-up Engineering Information Session
6. Review Engineering Student Activities/Proposals
7. Review Sponsorship Opportunities
8. Alumni Job Postings

### JOB FAIR

We are excited about working with you to help you find qualified students for co-op, intern and/or full-time positions. With 5,000 students, we are sure you will find the candidate you are looking for in the Whitacre College of Engineering!

#### Upcoming Job Fair dates are as follows:

Fall 2014	September 17, 2014
Spring 2015	February 18, 2015
Fall 2015	September 23, 2015

## Co-Op Program & Summer Internships

### WHAT IS CO-OP?

Cooperative Education is a partnership between the employer, the student and Whitacre College of Engineering. Employers gain the opportunity to recruit and evaluate students early, students gain invaluable job experience and training, and the university builds relationships with companies that help us keep informed on the latest advances in engineering.

### SUMMER INTERNSHIPS

Summer Internships are a great way for companies to work with talented students. Approximately 85% of our undergraduate student body participates in internships.

## Connecting to the College

Helping students make the transition from school to work takes a partnership between a university and a company. At the Whitacre College of Engineering, we believe in making relationships that help companies find the engineers they're looking for in our graduates.

Because we believe our graduates are some of the best prepared engineers anywhere, the Whitacre College of Engineering is committed to making your recruitment experiences on our campus a success year-round!

We know your goal is to keep your company's name in front of our students; so let us help connect you!

### SPONSORSHIPS

As part of the partnership, the Whitacre College of Engineering, its student organizations and departments continually look for ways to "brand" your company on our campus. Sponsorships are a great way to begin!

We continually have sponsorship needs to fill throughout the year from job fairs, welcome events, Engineers Week, student career resources, student organization activities and many, many more.
