Fourth Annual

Faculty and Staff Awards Banquet

Thursday, October 2, 2008
Order of Events

Milton Smith, Master of Ceremonies

Welcome
Dean’s Remarks

Guest Speaker .......................................................... Bill Marcy

FACULTY PROMOTION AND TENURE RECOGNITION

Promoted to Professor in Electrical and Computer Engineering ................................................................. Jim Dickens
Promoted to Professor in Electrical and Computer Engineering .............................................................. Andreas Neuber
Tenured and Promoted to Associate Professor in Mechanical Engineering ............................................. Yanzhang Ma
Tenured and Promoted to Associate Professor in Electrical and Computer Engineering ............................ Audra Morse
Tenured and Promoted to Associate Professor in Industrial Engineering ................................................ Iris Rivero
Tenured and Promoted to Associate Professor in Computer Science ...................................................... Nelson Rushton
Tenured and Promoted to Associate Professor in Electrical and Computer Engineering ....................... Michael Shin
Tenured and Promoted to Associate Professor in Chemical Engineering ................................................. Brandon Weeks
Tenured in Electrical and Computer Engineering ....................................................................................... Brian Nutter

STAFF AWARDS

Orval Leroy Lewis Award .................................................. Derek Birkenfeld
Orval Leroy Lewis Award .................................................. Isaac Mora

TEACHING AWARDS

University
Nominated for President’s Excellence in Teaching Award ................................................................. Brian Nutter

College
Dr. Charles Burford Faculty Award ................................................................. George Gray
Butler Distinguished Educator Award .......................................................... Mary Baker
Halliburton Teaching Excellence ......................................................... Michael Giesselmann
External Grant Recognition

Over $500,000
Jordan Berg
Ayrton Bernussi
James Dickens
Magne Kristiansen

Greg McKenna
Andreas Neuber
Henryk Temkin

$250,000-$500,000
Xinzhong Chen
Tim Dallas
Audra Morse
Sergey Nikishin
Michelle Pantoya

Ken Rainwater
Sindee Simon
Susan Urban
Yu Zhuang

University
Nominated for Chancellor’s Council Distinguished Research Award ................................................................. Michelle Pantoya
Nominated for Barnie E. Rushing, Jr. Faculty Distinguished Research Award .......................................................... Andreas Neuber

College
Whitacre Faculty Fellow ................................................................................................................................. Michelle Pantoya
Whitacre Excellence in Research ................................................................................................................... Jordan Berg
Whitacre Excellence in Research ................................................................................................................... Andreas Neuber
Whitacre Excellence in Research (Growth in Research) .................................................................................. Ayrton Bernussi

Paul Whitfield Horn Professorship
Dan Cooke, Professor, Department of Computer Science

Closing Remarks

Years of Service Awards

Retirement
Electrical & Computer Engineering ........................................... Kwong Chao
Electrical & Computer Engineering ........................................... Micheal Parten
Mechanical Engineering .......................................................... Carmen Hernandez
Electrical & Computer Engineering ......................................... Tom Trost
Electrical & Computer Engineering ........................................... Klaus Zieher
Electrical & Computer Engineering ........................................... Steve Patterson

Forty-five Years of Service
Civil & Environmental Engineering ........................................... Ernst Kiesling

Forty Years of Service
Civil & Environmental Engineering ........................................... Jimmy H Smith

Thirty Years of Service
Chemical Engineering .............................................................. Uzi Mann
Dean's Office ........................................................................... Pearl Trevino
Electrical & Computer Engineering ........................................... Sunanda Mitra
Electrical & Computer Engineering ........................................... Sandi Willingham
Engineering Technology .......................................................... Bobby Green

Twenty-Five Years of Service
Civil and Environmental Engineering ......................................... Carolann Stanley
Chemical Engineering .............................................................. James Riggs
Engineering Technology .......................................................... Sudqi Alayyan

Twenty Years of Service
Civil and Environmental Engineering ......................................... Phillip Nash
Dean's Office ........................................................................... Brent Guinn
Electrical and Computer Engineering ........................................... Hermann Krompholz
Mechanical Engineering .......................................................... Ming-Chien Chyu
Mechanical Engineering .......................................................... Sivapathasundaram Parameswaran
Mechanical Engineering .......................................................... Jahan Rasty

Fifteen Years of Service
Civil & Environmental Engineering ........................................... Cynthia Barbosa
Computer Science ....................................................................... Per Andersen
Computer Science ....................................................................... Noe Lopez-Benitez
Dean's Office ........................................................................... Julie Farley
Dean's Office ........................................................................... John Rivera
Electrical and Computer Engineering ........................................... Tim Dallas
Electrical and Computer Engineering ........................................... James Dickens
Engineering Technology .......................................................... Randy Burkett
Mechanical Engineering .......................................................... Alan Barhorst
Mechanical Engineering .......................................................... Darryl James

Ten Years of Service
Civil & Environmental Engineering ........................................... Andrew Jackson
Civil & Environmental Engineering ........................................... Bill Lawson
Computer Science ...................................................................... Dan Cooke
Computer Science ...................................................................... David Hensley
Engineering Technology .......................................................... Margie Ceja
Industrial Engineering ............................................................. James Simonton

Five Years of Service
Civil and Environmental Engineering ......................................... Brian Hirth
Computer Science ....................................................................... Nelson Rushton
Computer Science ...................................................................... Michael Shin
Computer Science ...................................................................... Michael Sobolewski
Dean's Office ........................................................................... Nick Rinker
Dean's Office ........................................................................... Toni Vaughn
Dean's Office ........................................................................... Richard Gale
Electrical & Computer Engineering ............................................. Miguel Hinojosa
Engineering Technology .......................................................... Michael Helm
Industrial Engineering ............................................................. Iris Rivero
Mechanical Engineering ........................................................... Yanzhang Ma
Petroleum Engineering ............................................................. Waylon House
Civil & Environmental Engineering ........................................... Darryl Low
