In Spring 2016, 44 M.A. and 22 Ph.D. students were funded by the program to assist with faculty research and teaching.

CoMC awarded a record 378 B.A. degrees in 2013-2014:
- # of M.A. degrees in 2015: 47
- # of Ph.D. degrees in 2015: 5

Our retention rates are higher than TTU’s in general:
- 1-year for CoMC is 88%; for TTU is 83%
- 6-year for CoMC is 72%; for TTU is 60%

In Spring 2016, 44 M.A. and 22 Ph.D. students were funded by the program to assist with faculty research and teaching.

The Thomas Jay Harris Institute for Hispanic and International Communication promotes teaching, research and service to improve society’s understanding of Hispanic-oriented and international communication, including the significant connections between them. The institute supports campus activities, interdisciplinary/cross-institutional collaborations and interaction with a variety of individuals and organizations in the region, state, nation and globally.

The Center for Communication Research is one of the country’s premier communication research facilities, encompassing more than 6,000 square feet of dedicated research space. It houses state-of-the-art labs including eye tracking, psychophysiology, continuous response dial testing, focus group testing, an in-home simulation lab and large controlled experiment lab.

CoMC set an all-time high in sponsored research funding in FY15 with $136,967 awarded to support faculty research. In addition, faculty submitted more proposals than ever before, more than doubling the number of submissions over the previous year. FY15 saw a 146% increase in the number of applications for sponsored research, hitting an all-time high in the number of proposals submitted. In addition, the value of awards was up 297% to an all-time high of $136,967.
