7 <info>
8 Expand your Web-building tools by learning how to build Web sites
9 that interact with users. Create online communities. Efficiently manage
10 hundreds of Web pages in large sites. Master Web design with HTML, CSS,
11 and basic graphics tools. Craft an entire Web presence that extends a
12 client's business mission. Use modern tools to manage server administration.
13
14 Install, manage, and extend self-hosted WordPress sites.
15
16 Find, acquire, and deploy scripts and plug-ins to create new Web applets.
