Fighting today’s global challenges means computing, whether to conquer a disease, improve education, or protect the environment. As our economy continues to integrate increasingly sophisticated computer technologies, the need for individuals skilled in computer science continues to grow. Ready to start your journey? From here, it’s possible!

**Career opportunities include jobs such as:**

- Information Security Analyst
- Software Developer
- Computer Systems Analyst
- Data Scientist

Texas Tech University is accredited with the Southern Association of Colleges and Schools Commission on Colleges.
