CSC Weekly News - 10/11/16

Science By The Glass

Join us for our [Science By The Glass](#) event tonight, October 11th from 5-7PM at the Fox & Hound. This month, Science By The Glass presents a political science and energy policy panel featuring Dr. Brian Shreck, Dr. Daniel Epstein, Dr. Nathaniel Wright, and Dr. Robert Forbis. This panel will be moderated by Dr. Katharine Hayhoe. The title of their discussion will be "Hot Air: Climate Change and the 2016 Election." Science By The Glass events are informal discussions that bring together members of the community with TTU faculty and students to discuss topics related to science, climate, and society. To learn more about our SBTG events and watch previous presentations [click here](#). To learn more about the panelists and our moderator go to our [Facebook](#) event link page.

October 16, 2-4PM

You don't want to miss our community event this Sunday, October 16th from 2-4PM at the Museum of Texas Tech. The CSC has partnered with the Museum to host an event highlighting over 15 local organizations for sustainable living. The event will feature a presentation by Dr. Katharine Hayhoe from 2-2:30 and interactive displays from the organizations, which will be highlighting information on water, renewable energy, recycling, lighting, wildlife, and more (booths will feature live birds, insects, plants, and more). This event is in conjunction with the Museum's new exhibit *Green Revolution*, open until January 15, 2017. After visiting the booths, the audience is encouraged to visit this exhibit. *Green Revolution* is based on an exhibition originally created by the Museum of Science and Industry, Chicago, and its Black Creativity Council, and is made available by the Smithsonian Institution Traveling Exhibition Service.
