

*Run on the Wind:*  
**Engineering  
A Clean Tomorrow**

**Texas Tech University  
For students entering grades 7-11**

**June 7-12, 2009**

In the not too distant future, clean, renewable energy sources will provide much of the electricity for the world's population. We are watching as wind power production expands across the Great Plains of the United States, dotting the landscape with giant turbines that seem like living creatures from afar. Wind power is indeed a growth industry of the 21<sup>st</sup> Century, and its needs for people with knowledge and expertise to ensure its growth are becoming more critical every year.

Join us at Texas Tech for a fun-filled and informative five-day/five-night summer camp that explores the power of the wind and the means by which we harness it. In this camp, you will see how we forecast and measure the wind, learn the basics of turbine design, and build and test your own wind turbine. You will gain knowledge about how wind science is interdisciplinary and what careers are possible with a degree in wind science. And, you will learn what academic skills are necessary to succeed as a wind scientist.

**Discover how the wind will help to power up the electrical grid of tomorrow.**

**Join us and learn to run on the wind.**

## **CLASSES**

Classes are team taught by experienced university and public school faculty and emphasize hands-on activities. Classes are interdisciplinary to allow campers to explore many aspects of science through the lens of wind science. Students will be grouped into classes by age.

## **HOUSING**

Students are housed in Texas Tech residence halls. Each camper will have one roommate. One counselor is assigned to every 15 campers. Campers may request a roommate (not guaranteed). Meals are served daily in a Texas Tech dining hall.

## **RECREATION**

Evenings are devoted to traditional summer fun that includes swimming, basketball, volleyball, movies, a pizza party, and a trip to the Main Event.

## **REGISTRATION FEE – \$595**

Tuition includes instruction, supervision, room and board, a camp T-shirt, and evening recreation. Applications without deposits are not processed.

## **IMPORTANT DEADLINES**

- The balance due deadline and the refund deadline:  
**May 18, 2009.**
- Registrations are accepted on a first come first serve basis.
- Because enrollment is limited, early registration is encouraged.
