

Creating Activities in **go**react for instructors

OVERVIEW

Instructors may need to create activities to accomplish tasks like homework or discussions as a part of GoReact course. Below are some steps.

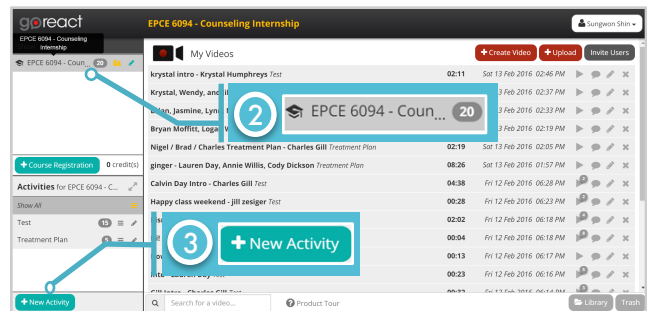

STEPS

Step 1. Open your GoReact dashboard on a browser (PC or Mobile).

Step 2. Choose the course you are working on (e.g., EPCE 6094) from the left panel.

Step 3. Click the New Activity button at bottom left.

Step 4. Enter a name for the activity (required). Enter the number of points this activity will be worth, available date, and due date if you like. Select the type of Activity you want to create. And then click on “Create Activity”.

The 'Create Activity' form is shown with the following fields and options:

- Title:** A text input field with the placeholder 'Type a name for the activity...'.

- Pts:** A text input field with the placeholder 'Points (optional)'.
- Type:** Four activity type options are listed:

 - Stimulus—Video Response:** Participants submit a video response synchronized with a stimulus/prompt media.
 - Stimulus—Comment Only:** Participants discuss or comment on a stimulus/prompt media. No video response is submitted.
- Options:** A section with a 'Test' icon and a 'Limit' field set to 'minutes'.
