Generic Special Education

The Special Education Generic concentration DOES NOT fulfill the requirements for initial teaching certification. Candidate applicants who do not possess teaching credentials are encouraged to explore alternative certification or a post-baccalaureate program. Texas Tech University does not offer these program options.

Admission Requirements:

- Fulfill all requirements set forth by the Graduate School
- Bachelor’s degree
- 2.75 or higher GPA
- Deadlines for Admission are: August 1 (fall); December 1 (spring); and May 1 (summer).

Trademark Outcome: Engage in collaboration with stakeholders to improve outcomes for students in assessment and classroom settings.

Standards Used:
Council for Exceptional Children (CEC)
- Initial Preparation Standards (IPS)

Performance Skills

Phase One
- IPS 7.7.1 - Collaboration - Beginning special education professionals use the theory and elements of effective collaboration.

- IPS 5.5.5 – Instructional Planning and Strategies – Beginning special education professionals develop and implement a variety of education and transition plans for individuals with exceptionalities across a wide range of settings and different learning experiences in collaboration with individuals, families, and teams.

Phase Two
- IPS 7.7.3 – Collaboration – Beginning special education professionals use collaboration to promote the well-being of individuals with exceptionalities across a wide range of settings and collaborators.

- IPS 4.4.3 – Assessment – Beginning special education professionals, in collaboration with colleagues and families, use multiple types of assessment information in making decisions about individuals with exceptionalities.

Phase Three
- IPS 7.7.0 – Collaboration – Beginning special education professionals collaborate with families, other educators, related service providers, individuals with exceptionalities,
and personnel from community agencies in culturally responsive ways to address the needs of individuals with exceptionalities across a range of learning experiences.

- IPS 5:5.0 – *Instructional Planning and Strategies* – Beginning special education professionals select, adapt, and use a repertoire of evidence-based instructional strategies to advance learning of individuals with exceptionalities.

**End of Phase Assessment**

There is no required course sequence with the exception of EDSP 5093 which must be taken in the final Fall/Spring semester of coursework.

- The Phase 3 End of Phase Assessment (Comprehensive Examination Project) is taken during the last semester of coursework.

- EDSP 5093 – Coursework includes administration of formal assessments (Woodcock-Johnson, Wechsler, and Kaufman). A limited number of test kits are available from the TTU test closet. Test kits cannot be mailed out of state/country. Candidates residing out of state/country are required to obtain test kits locally to fulfill course requirements.

- A grade of “B” or higher in EDSP 5093 is required to complete the M.Ed. Special Education – Generic. Candidates earning the grade of C or lower will be required to repeat the course.

- This is a web-based course that requires 200 hours of field placement plus additional "class preparation" time. The 200 hours must be undertaken in a classroom (or clinical) setting. You are required to contact a certified special education teacher (or professional) to act as your site-supervisor.

**Master’s Comprehensive Examination Project:**

Standards Used:
Council for Exceptional Children (CEC)
- Initial Preparation Standards (IPS)

**Comprehensive Examination Project**

1. Register electronically with the College of Education Graduate Office for the Comprehensive Examination Project.

2. Submit your Intent to Graduate electronically with the Graduate School.

3. Candidates are required to complete a Comprehensive Examination Project to evaluate the impact of a behavioral or instructional intervention developed through the collaborative consultation process using data gathered from assessment procedures. You have practiced for this project across a variety of courses including EDSP 5303 and EDSP 5307. The procedure should include:
   a. An initial consultation with parents and/or teachers to plan an intervention based on the
assess data. Select only one behavior or academic skill to change during this process.

b. The intervention plan should include the exact methodology that you will use.

c. Baseline and intervention data collection concerning student changes as a result of the intervention will be presented in graph format.

d. The results of the intervention will be discussed in a final collaborative consultation meeting.

e. A new plan for intervention based on intervention data collected should be developed.

4. Complete the Comprehensive Examination Project by gathering data to demonstrate mastery of the goals. See Comprehensive Examination Project Rubric.

5. Steps for completion of the Comprehensive Examination Project:
   a. You will create one document that will include the following sections:
      i. Completed Evidence Template in bulleted format
      ii. Baseline and Intervention graph
      iii. Assessment Report
      iv. Intervention plan
   b. You will upload the videos that show the evidence of mastery for each of the 4 required skills.
      i. Video evidence of the candidate actually performing the skills
      ii. Instructions to submit Videos via Unlisted You – Tube
         1. First, you must register for your own YouTube account. (http://www.youtube.com). Click on “Sign In” and then “Create an Account.” Follow the instructions to set up a YouTube account with a user name and password.

         After you have recorded your video, you need to upload it to YouTube.
         2. You will be asked to give a title, description, tags (education, consulting, etc) and a category.
         3. Then it will ask you how you want to publish it. The options are Public (everyone sees) Unlisted (only those with a link can view) and then Private - only you can view it.
         4. Select ”UNLISTED.”
         5. After it is uploaded to YouTube, you go to ”My Videos” and click on the video that you want to share. There is a share button. When you click it, you will be given a URL that you can copy and paste into the Report document. Only people with that URL can view your video. It is not “searchable” on YouTube.
   c. Submit a finished product:
      i. Written summaries of behaviors that provide specific evidence of each descriptor on the Comprehensive Examination Project Rubric using the Scoring and Evidence Template for the Comprehensive Examination Project.
         1. Write the evidence in bulleted form not sentences.
         2. Describe exactly what is taking place in the video that provides
Evidence of mastery
3. Avoid general descriptions like (“I’m nice to them.”)

ii. 3-4 video clips (no more than 10 to 15 minutes total) which provide direct visual evidence of the candidate’s mastery of the each subskill.
1. Areas for the video clips will include:
   a. Communicating in an initial team meeting
   b. Developing or modifying individualized assessment strategies in a team meeting
   c. Implementing the chosen intervention with an individual (brief video of you only working with subject)
   d. Explaining the effectiveness of the intervention and collaborating to plan for further intervention in a final team meeting
2. Mark the evidence by stating the exact time that it takes place on each video using the time stamp.
3. The entire segment of video clips may not exceed 10-15 minutes.

iii. Include the assessment and/or intervention report
iv. Include an intervention plan
v. Include both the baseline and intervention graphs

6. A passing score for the Comprehensive Examination Project will reflect the candidate’s ability to perform and describe the descriptors for the collaborative consultation skills in the four areas at the “Meets Expectations” level.

Important: You must file with the Graduate School an intent to graduate and application to take the Master’s Comprehensive Exam. You will receive an email notice from the COE Graduate School Coordinator containing instructions pertaining to graduation requirements prior to your final semester.

Trademark Outcome: Engage in collaboration with stakeholders to improve outcomes for students in assessment and classroom settings.

<table>
<thead>
<tr>
<th>Subskill</th>
<th>Meets/Exceeds Expectations -5</th>

<tbody>
<tr>
<td>IPS 7:7.1- Beginning special education</td>
<td>___Always pays close attention to speaker and ___</td>
<td>___Sometimes pays close attention to speaker</td>
<td>___</td>
<td>___Rarely pays attention to speaker</td>
<td></td>
</tr>
</tbody>
</table>
professionals use the theory and elements of effective collaboration. maintains eye contact with speaker  
___Always summarizes or asks questions for clarification  
___Clearly states problem in an objective manner  
___Always asks direct, informational questions  
___Always keeps meeting focus on the target problem

| IPS 3:3.3- Beginning special education professionals modify general and specialized curricula to make them accessible to individuals with exceptionalities. | ___Analyzes targeted problem to determine intervention w/group input  
___Develops and implements a detailed written step by step intervention plan based on problem identified | ___Analyzes targeted problem to determine intervention needs w/minimal group input  
___Develops and implements a general plan for intervention based on problem | ___Vague analysis of problem, intervention needs with little to no evidence of group input  
___Unclear intervention plan, not linked to problem, no implementation |

| IPS 4:4.2 – Beginning special education professionals use knowledge of measurement principles and practices to interpret assessment results and guide educational decisions for individuals with exceptionalities. | ___Provides complete written report of intervention & progress monitoring data collected  
___Clearly/correctly communicates results/report of intervention data to the group | ___Provides brief written report of intervention and progress monitoring data collected  
___Somewhat clearly/correctly communicates results/report of intervention data to the group | ___Vague analysis of problem, intervention needs with little to no evidence of group input  
___Unclear or incorrect reporting of results of intervention to the group |

| IPS 4:4.4 – Assessment – Beginning special education professionals engage individuals with exceptionalities to work toward quality learning and performance and provide feedback to guide them. | ___Makes all decisions/recommendations about future goals based on data w/group input | ___Makes most decisions/recommendations about future goals based on data | ___Vague analysis of problem, intervention needs with little to no evidence of group input  
___Unclear or incorrect reporting of results of intervention to the group |

The grade is Pass/Fail for the Comprehensive Examination Project using the Rubric ratings of at least two faculty members. Ratings must average overall a Minimal/Acceptable or above to receive a Pass for the project.

**Thesis Option**
Each Master’s Degree candidate will have an option of completing a thesis as part of the requirements for the Master’s Degree in Special Education. Under this option, candidates enroll in 6 semester hours of EDSP 6000, and this becomes part of the minimum of 36 semester hours on the degree plan. Candidates completing a Master’s thesis are exempt from taking the comprehensive evaluation. However, candidates must complete a final oral defense.

If interested in completing a Master’s thesis, candidates should discuss these plans with their advisor. A thesis committee of at least two full-time faculty members of the College of Education will be recommended by the advisor and approved by the Graduate School. This committee will provide ongoing guidance as the candidate prepares the proposal, carries out the research project, and completes the written document. The process of planning the thesis, ideally, should begin in the semester in which the candidate takes Introduction to Educational Research.

The final copy of the thesis is prepared in accordance with the requirements in Instructions for Preparing and Submitting Theses and Dissertations, available online and in the Texas Tech Bookstore.

Evaluation for the Master Degree Thesis
1. Check with your advisor, and with your advisor’s help, choose at least a 2-member thesis committee. This committee should match your degree plan.
2. Set up a meeting with your thesis committee to talk about your selection for an appropriate topic.
3. Your thesis committee should guide you through the process, including the Need for Human Subject approval. However, it is the responsibility of the candidate to fill out and submit paperwork to his/her advisor.
4. Thesis defenses should be completed by early November for fall or late March for spring to file the thesis with the Graduate School. Remember that the Graduate School has deadlines for submission, and candidates must adhere to these guidelines. It is the candidate’s responsibility to keep track of all deadlines. Should a candidate miss the deadlines or fail the thesis defense, he or she has one semester to complete and successfully defend the thesis. Otherwise a failing grade will be recorded.
