Student Perception Survey
Class Average Ratings - Fall 2021**

Colorado's Student Perception Survey is a 34-question instrument that measures elements of the student experience that have been demonstrated to correlate most closely to a teacher's ability to positively impact student growth. Students are asked to indicate how frequently they experience each item with a response scale of always, most of the time, some of the time, and never. The survey is organized by four elements: Student Learning, Student-Centered Environment, Classroom Community, and Classroom Management.
