The College of Education at Texas Tech University is recognized as an emerging national leader in high-quality and innovative educator preparation. We are changing the way our future educators influence tomorrow's leaders with our innovative undergraduate and graduate programs. Working directly with school district partners statewide, community agencies and other institutions of higher education, we prepare our graduates for the unique professional demands of the 21st century.

Texas Tech University seeks an Assistant Professor of Instructional Technology for an academic year tenure-track position starting in fall 2016.

Qualifications: The successful candidate will have:
- an earned doctorate in Instructional Technology or a closely related field;
- an active research agenda in instructional technology, personalized learning, or teacher education;
- research experience in a K-12 classroom and a teacher preparation program in terms of technology integration and student-centered learning;
- experience in designing curriculum for an instructional technology program;
- experience in designing teacher education curricula based on personalized learning;
- experience in developing and delivering face-to-face and online courses;
- experience in teaching technology integration course(s) in a teacher preparation program and/or graduate courses in the field of instructional design and technology;
- experience in developing a partnership with school districts for student-centered learning (e.g., personalized learning);
- experience in instructional design, development, and evaluation;
- record of professional service appropriate to the discipline; and
- excellent interpersonal and communication skills.

Responsibilities: The successful candidate will:
- teach Instructional Technology courses in both face-to-face and online environments;
- coordinate a technology integration curriculum for the Department of Teacher Education;
- conduct research that meaningfully contributes to the improvement of practice and the field;
- supervise student research and practice in a manner that promotes their synthesis;
- advise graduate students and chair dissertation committees;
- contribute to collaborative and interdisciplinary projects; and
- apply for and manage external funding to support research and the improvement of practice;
- contribute to the advancement of specialization and program goals through service; and
- provide service to the program, college, university, and the profession.

The College of Education at Texas Tech University is comprised of the Department of Curriculum and Instruction, the Department of Teacher Education, and the Department of Educational Psychology and Leadership. The College of Education houses 11 graduate programs that prepare both applied and basic researchers who possess the skills to work with diverse populations. Texas Tech University, a member of the Big 12 Conference, is located in Lubbock, Texas (population 260,000). Texas Tech University is a comprehensive university with an enrollment of over 35,000 and is the only campus in Texas where both the law school and medical school are housed at the same location. The University has a wide range of undergraduate and graduate NCATE/CAEP accredited programs.

Interested candidates should submit application materials online at the TTU Personnel Employment website: http://www.texastech.edu/careers/ Requisition # 7136BR. Please include your curriculum vitae, copied graduate transcripts, and a list of five references with complete address, phone number, and email address, and a letter of application. Review of applications will begin in May, 2016 and will continue until the position is filled.
