GUIDE

BE FAMILIAR WITH FIPG STANDARDS

FIPG serves as the standard policy and practice for most organizations on our campus. Organizations who are not member groups of the Fraternal Information & Programming Group each outline policies equal to or greater than those listed within FIPG. Should an organization have a policy that goes beyond that of the standard FIPG policy, the organization should observe the strictest outlined practice. FIPG also outlines standard policies as it relates to hazing, sexual abuse and harassment, fire, health and safety and the education of policies with member groups.

CONSULT NATIONAL POLICIES

Each organization sets its own national policies in regard to social event planning. It is critical that you understand, follow and respect the policies of your national organization AND those of all other co-hosting organizations. When co-hosting a social event with other organizations the strongest/strictest policy stands and must be followed by all that attend, regardless of the guests affiliation.

An understanding of national policies is not only important for the safety of your members but also the liability of your organization. Insurance provided through your national organization or liability insurance purchased for a special event is often void should your policies not be adhered to at the event.

WHAT CONSTITUTES A ORGANIZATION EVENT?

- Is the event being hosted or planned by one or more members and supported by the Executive Council? Y / N
- Is the event financed by the organization and/or being hosted on organization property? Y / N
- Does the Executive Council have prior knowledge of the event? Y / N
- Is the event listed or advertised on the organization website or social media accounts? Y / N
- Do online invitations refer to the organization? Y / N
- Is the event listed on a organization calendar [public or private]? Y / N
- Will the event be announced at a organization meeting? Y / N
- Will members of the Executive Council be in attendance? Y / N
- Are members attempting to give the appearance that the party isn't associated with the organization? Y / N
- If guests were stopped on their way to the event, would they say they were going to a XYZ event? Y / N
- Is the event actively or passively endorsed by a majority of the active organization? Y / N
- Have members of the organization lied about the event? Y / N
