

The TTU Department of Geosciences offers four minors and participates in one interdisciplinary minor:

GEOGRAPHY MINOR:

The geography minor requires GEOG 1401, 2300 or 2351, 3300, and 9 hours of upper-division geography.

GEOLOGY MINOR:

The Geology Minor requires GEOL 1303, 1101, 1304, 1102; one lab course from the following list: GEOL 2303, 3301, 3305, or 3450; and additional junior-senior GEOL, GPH, GCH hours to total 18 hours in the minor.

GEOPHYSICS MINOR:

The Geophysics Minor requires 9 hours in geophysics and 9 hours of related science or mathematics coursework; 6 hours must be at the junior-senior level.

ATMOSPHERIC SCIENCES MINOR:

The Atmospheric Sciences Minor requires ATMO 1300, 1100, 2301, 2316, 3301, and approved elective courses to total 18 hours. Six hours must be at the junior-senior level. A list of approved elective courses is available from the department.

GEOGRAPHIC INFORMATION SYSTEMS MINOR:

In addition, the College of Arts and Sciences offers an Interdisciplinary GIS minor.
