Request for Estimate of Retirement Benefits

Use this form to request information for retirement. You may request *either* a retirement estimate or a retirement packet. A retirement estimate will show you the estimated benefits that you will receive. A retirement packet will include a retirement estimate and all of the forms necessary to apply for retirement from TRS.

You may expect to receive the requested information, mailed to your address of record, within *approximately four weeks*.

Need additional retirement estimates? Please visit MyTRS

MyTRS is the secure online access portion of the TRS website and is available to eligible TRS members and annuitants. By using the "Retirement Calculator" through *MyTRS*, you can instantly receive retirement estimates with your information already on file.

Important information regarding membership in other Texas public retirement systems

TRS/ERS Service Transfer

- A TRS member with at least three years of service with TRS may transfer any service credit with the Employees Retirement System of Texas (ERS) to TRS and retire from TRS based on the total amount of service credit.
- An ERS member with at least three years of service with ERS may transfer any TRS service credit to ERS and retire from ERS based on the total amount of service credit.
- Transfer of service credit happens at the time of retirement.
- Transferred service credit will be used to determine eligibility for retirement and the amount of your monthly retirement annuity.
- If you have withdrawn ERS service credit, you may be eligible to purchase this service credit and transfer it to TRS. To inquire about ERS withdrawn service credit, contact ERS at 877-275-4377.
- If you indicate that you have ERS service credit on this form, TRS will supply you with the necessary form to transfer your ERS service credit to TRS.

Proportionate Retirement Program

- Allows you to combine service credit from two or more retirement systems to help meet retirement eligibility requirements.
- You must meet retirement eligibility in each of the other systems in order to use the combined service credit toward TRS retirement eligibility.
- While all combined service credit will be considered to determine eligibility for TRS service retirement benefits, the calculation of any TRS retirement benefit amount is based solely on TRS service credit and salaries.
- If you retire from more than one retirement system, you will receive a separate benefit from each retirement system based on the service credit with that system.
- You may be eligible to reinstate previously withdrawn service credit in one of the participating retirement systems. You must contact the retirement system in which you were previously a member to determine the process for reinstating any withdrawn service credit.
- Proportionate retirement only applies if a member is not eligible for service retirement under TRS and the combined service makes the member eligible, OR if a member is currently eligible for a REDUCED service retirement benefit and the combined service makes the member eligible for an unreduced benefit.
- Eligibility for TRS-Care health care benefits is based solely on TRS service credit.
