

MEET YOUR ADVISOR

Donna Burt

ABOUT ME:

I grew up as a military brat, moving around from place to place, but landing in Colorado Springs where I graduated from high school. I came to west Texas to go to college. I graduated with a degree in general business. I have worked in banks, a graduate school and a small college. I have worked at Tech for 7 years as an advisor. I love working with students and helping them achieve their academic and personal goals as a student and person. I have two grown children. One is a student here at Tech and one is married to a navy man and lives in Guam. I also have a cocker spaniel named Kayleigh.

FAVORITE CLASS IN COLLEGE:

I must say it was one of my marketing courses. The professor was engaging and challenged the class to think “out of the box”. He also gave us candy bars on test days!!

INTERESTS & HOBBIES:

Anyone who has come into my office knows I collect cows, especially the Mary Moo Moo figurines. However, getting up close and personal to real cows is not something I choose to do very often.

LOOKING BACK:

Going to college away from home was a great learning experience for me. I made some good choices, and I made some really bad choices. But they have made me who I am today and allow me to connect with students. It took me five years to graduate, partially due to changing my mind a few times, and partially due to a really bad semester academically (I was sent home). I wish there had been resources like the ones available through University Career Services. I might have finished quicker and known more about what choices were available for me.

MY 5 STRENGTHS/QUEST THEMES:

Consistency, Adaptability, Harmony, Relator, Activator.

How can I assist you?

- ◆ Course selection and academic program planning
- ◆ Registration procedures
- ◆ Progress towards your degree
- ◆ Information on campus resources
