I (print name clearly) ______________________________ understand that it is a requirement of Texas state law that I attend orientation in order to be enrolled in HDFS 3311 or 3313. That orientation will be given on the FIRST DAY OF CLASS. Therefore, if I do not attend the first lecture and lab period I may be dropped from the class. It is also required by Texas state law that you must be able to pass a criminal history background check. If you have been arrested before and are concerned about your ability to pass a background check, please contact Stacy Johnson, Director of the CDRC before classes begin.

Once you sign this contract we will issue a permit (as space and graduation priority allow) so that you may enroll for your desired discussion and lab sections. Students who will student teach/graduate first are given priority.

**If you do not meet the required 2.5 GPA you must first get approval from the departmental office.

We will email you to let you know when you have been permitted so that you may complete your enrollment. This course requires both the 3 credit hour discussion section and a no credit hour lab section.

R#: __________________________ GPA: __________________________
