

## Examples of Case Studies Presented by Dietetic Interns During TTU Dietetic Internship

Oral Case Study	Written Case Study
<b>Emergency surgical repair of Ruptured Abdominal Aortic Aneurysm with compounding complications and the struggle to provide nutrition support</b>	Peripheral Vascular Disease with Skin Necrosis and CAD 2/2 ESRD on Peritoneal Dialysis
<b>MVA: case study on TBI, acute respiratory failure, pneumonia, sepsis, and hemiparesis</b>	Acute Kidney Injury, Sepsis, pressure ulcers, intermittent hemodialysis
<b>Spinal Cord Contusion Resulting in Quadriplegia Secondary to Fall at Home</b>	Acute on Chronic Pancreatitis
<b>Intracerebral Brain Hemorrhage Associated with Cocaine Use</b>	Wound Dehiscence of the Sternum post myocardial infarction, leading to multiple organ failure with possible Coumadin toxicity Acute Inflammatory Demyelinating Polyneuropathy with Sepsis, UTI and Bacteremia Klebsiella pneumonia
<b>Cocaine Induced Vasculitis, Levamisole Intoxication</b>	
<b>Food Borne Illness Leading to Respiratory Failure: A Case of Botulism in Fermented Fish</b>	Morbid Obesity Leading to Renal Failure and Heart Failure
<b>Significant left temporal Epidural Hematoma Related to traumatic Brain Injury</b>	Alcohol Induced Severe Acute Pancreatitis
<b>CVA leading to a persistent Vegetative State, Respiratory Failure, Sepsis and Chronic Kidney Disease</b>	Acute-on-Chronic Respiratory Failure, COPD, s/p Critical Illness Myopathy with Weakness
<b>Car vs Pedestrian Leading to Subarachnoid Hemorrhage/Pneumocephalus, Pneumothorax, Acute Respiratory Failure and Hemorrhagic Shock</b>	Acute respiratory failure, septic shock, and acute coronary syndrome s/p cardiac arrest related to PMH of multifocal motor neuropathy disease
<b>Necrotizing Soft Tissue Infection, Acute Renal Insufficiency, Sepsis and Metabolic Stress</b>	Acute Myeloid Leukemia, Acute Renal Failure, and Severe Sepsis
<b>Necrotizing, Hemorrhagic Pancreatitis with Hypertriglyceridemia</b>	Respiratory Failure, Congestive Heart Failure, Acute on Chronic Kidney Failure, and Elephantiasis related to Super Morbid Obesity
<b>Motorcycle Collision with Diffuse Axonal Injury, Mediastinal Hematoma, Multiple Fractures</b>	Crohn's Disease with total Colectomy and Ileostomy
<b>Spontaneous Ruptured Brain Aneurysm/SAH/Ischemic Stroke</b>	BKA s/p Partial Foot Amputation, CABG Related to CAD, and Cholecystectomy with Poor Oral Intake
<b>Right Foot Amputation with Wound Recovery</b>	Acute Metabolic Encephalopathy and Hypokalemia with ALS

---

**Ulcerative Colitis leading to Megacolon w/ perforation  
s/p colectomy & ileostomy**

Squamous Cell Carcinoma Esophageal Tumor with Obstruction

**MVC leading to Subarachnoid Hemorrhage and  
Pneumothorax**

Small Bowel Obstruction d/t Duodenal Adenocarcinoma with  
resulting Whipple procedure

**Gastric Adenocarcinoma s/p exploratory laparoscopy  
with GJ anastomosis and J-tube and G-tube placement**

Acute laryngitis secondary to laryngeal mass status post  
resection resulting in dysphagia

**Airway Obstruction 2/2 Retropharyngeal and  
Parapharyngeal Abscess**

Hepatic Encephalopathy
