Graduate research/teaching assistant opportunities in Industrial Engineering at Texas Tech University

About us: Texas Tech University (TTU) is located in Lubbock, west Texas. Industrial Engineering (IE) department offers a Ph.D. in Industrial engineering

Our benefits: As research or teaching assistant in IE, you will receive:
• $27500/year financial support.
• about $9000/year paid tuition.
• related health insurance and other fringe benefits.
• office space.
• outstanding database for research.

Research interests:
• Additive manufacturing
• Composite manufacturing
• Renewable energy manufacturing
• Remanufacturing
• Traditional and nontraditional machining processes

We seek individuals with an earned Master in industrial engineering, mechanical engineering, material sciences or a closely related field. Manufacturing research background is highly desired. The successful candidates will lead research on additive manufacturing using laser technology or other closed advanced manufacturing area.
