

Computer Based Training with Udemy - cbt.ttu.edu

The TTU IT Division offers learning and professional development “anytime, anywhere” for the TTU community with free online Computer Based Training (CBT), a service TTU contracts from Udemy. CBT is an online, self-paced, interactive training system with over 19,000 courses available to all TTU students, faculty, and staff. CBT offers courses for professional development, resume’ enhancement, just-in-time training, and on-the-job training.

Courses are taught by a diverse set of world-renowned instructors, leveraging technology to engage learners. Thousands of courses are also available in French, German, Japanese, Portuguese, and Spanish. CBT supports learners who want to advance in their current profession or gain a more profound understanding of topics of personal interest.

What Can I do With Access to Udemy?

- **Skill Enhancement:** Access a diverse array of courses to develop and refine your personal and professional skills.
- **Stay Current:** Keep up with industry trends and emerging technologies through courses that help you adapt to the evolving educational landscape.
- **Instructional Improvement:** Utilize instructional design courses to enhance your curriculum creation, teaching techniques, and student engagement strategies.
- **Flexible Learning:** Engage in continuous learning at your own pace, allowing you to expand your knowledge and expertise without disrupting your busy schedule.
- **Close Knowledge Gaps:** Instructors can support students by sharing links to Udemy courses that cover essential skills, helping their students strengthen areas where they might need assistance.

Features Include:

- Unlimited access to 19,000+ top courses selected from Udemy.com – anytime, on any device;
- Fresh content taught by global, credentialed instructors;
- Courses for professional development, including leadership, marketing, sales, software development, programming, and IT;
- Courses for personal development and wellness, including photography, drawing, writing, yoga, and meditation;
- 24/7 access to on-demand learning on your desktop, laptop, tablet, or smartphone (available on both Android and iOS);
- Download courses or individual lessons for offline viewing;
- In-depth courses from 2 hours each to 40 hours, with individual lessons under 10 minutes; and
- Shorter Smart Tips courses (around 5 minutes).

What Makes Udemy Business Instructors Compelling?

They’re real-world subject matter experts

Our instructor community includes thought leaders, industry experts, bestselling authors, executive coaches, practitioners, and award-winning professors.

They’re empowered by data

We analyze learning data points and expose key trends to our instructors to help them identify new and emerging skills to continually upskill your team.

They have diverse backgrounds and experience

Our unique marketplace model enables us to attract instructors from over 180 countries across a wide range of industries, verticals, and skills.

They’re evaluated for quality and relevance

We continuously vet our instructors through a combination of manual and automated curation tactics and social proof. We listen to learners to understand what resonates.

They’re incentivized to keep content fresh

Through course ratings, reviews, and direct messaging, our instructors receive regular feedback from learners that help identify areas of improvement and ensure freshness and quality.

They’re a global community of native speakers

In addition to our courses in English, we have an International Collection featuring courses taught by talented instructors in their native language.
