

# **Anatomy and Physiology (ANATPHYS) 1B Syllabus**

## **Course Name**

ANATPHYS 1B

Anatomy and Physiology 1B – Semester B

## **Course Information**

ANATPHYS 1B is the second semester of this two-semester course.

Building on the prior prerequisite course, students will examine the form and function of even more body systems. Students will learn about the structure, function, and interrelation between the lymphatic, immune, respiratory, digestive, urinary, and the endocrine systems. The reproductive system is also discussed along with hereditary traits and genetics. Finally, students will explore the importance of accurate patient documentation as well as technology used in the industry.

## **Course Delivery Method**

Online

## **Contacting Your Instructor**

You may contact your instructor through the Blackboard messaging system. Technical support is available 24/7 at [www.k12.ttu.edu](http://www.k12.ttu.edu).

## **Course Objectives**

After completing this course, you should be able to:

1. describe the structure and function of the immune system;
2. analyze the structure and function of the respiratory system;
3. discuss the six digestive processes and the digestive enzymes;
4. explain the structure and function of the urinary system at both a macro and micro level;

5. compare and contrast the organization of the male and female reproductive systems;
6. explain how the endocrine system maintains homeostasis;
7. describe confidentiality and the laws that govern patient privacy;
8. discuss examples of different types of research studies that can advance the science of anatomy and physiology;
9. distinguish between the scopes of practice of various healthcare professions; and
10. illustrate the ways in which healthcare professionals work collaboratively.

ANATPHYS addresses the required Texas Essential Knowledge and Skills (TEKS). These can be found at the [Texas Education Agency](http://www.teks.org) website.

## **Textbook and Materials**

### ***Textbook(s)***

There is no required text to purchase for this course.

### ***Materials***

There are no extra materials required for this course.

## **Technical Requirements**

- Internet access – preferably high speed (for accessing Blackboard)
- Email
- Word processing software such as Microsoft Word
- Adobe Reader (download from [Adobe.com](http://adobe.com))
- Audio and video capabilities (for watching/listening to course content)

## **Technical Skill Requirements**

Be comfortable with the following:

- using a word processor
- Internet search engines and browsers

## **Course Organization**

This course consists of eight units, a midterm exam, and a final exam. Each unit contains the following:

- Introduction and Instructions
- Learning Objectives and Curriculum Standards

- Learning Activities
- Assignments

Each unit includes several activities that present content knowledge. Each unit also includes multiple graded assignments to ensure that you learn the content that has been presented in the activities. Some of the assignments are automatically-graded quizzes, and some are written assignments or activities that your instructor will grade. Be sure you read all instructions carefully and ask your instructor for help if something is not clear.

## Course Outline

Please note that some assignments will be hidden from you when you start the course. As you move through the units and complete assignments, more will unlock for you.

Unit	Topic	Approximate Time for Completion
Unit 1	The Lymphatic and Immune System	Two weeks
Unit 2	The Respiratory System	Two weeks
Unit 3	The Digestive System	Two weeks
Unit 4	The Urinary System	Two weeks
Midterm	Units 1-4	
Unit 5	The Reproductive System and Genetics	Two weeks
Unit 6	The Endocrine System	Two weeks
Unit 7	Assessing and Documenting Anatomy and Physiology	Two weeks
Unit 8	The Science and Technology of Anatomy and Physiology	Two weeks
Final Exam	Units 5-8	

## Assignment Schedule

Each of the following must be completed to complete the course. Items with an asterisk (\*) indicate that these are summative assessments for the course.

Unit	Weeks	Assignments
1	1-2	Checkpoint 1 (Non-graded) Unit 1 Critical Thinking Questions Unit 1 Lab

Unit	Weeks	Assignments
		Unit 1 Activity Unit 1 Quiz Unit 1 Discussion
<b>2</b>	3-4	Unit 2 Critical Thinking Questions Unit 2 Lab Unit 2 Activity Unit 2 Quiz Unit 2 Discussion
<b>3</b>	5-6	Unit 3 Critical Thinking Questions Unit 3 Lab Unit 3 Activity Unit 3 Quiz Unit 3 Discussion Checkpoint 2 (Non-graded)
<b>4</b>	7-8	Unit 4 Critical Thinking Questions Unit 4 Lab Unit 4 Activity Unit 4 Quiz Unit 4 Discussion
<b>Midterm Exam</b>		Midterm Discussion <b>*Midterm Exam</b>
<b>5</b>	9-10	Unit 5 Critical Thinking Questions Unit 5 Lab Unit 5 Activity Unit 5 Quiz Unit 5 Discussion
<b>6</b>	11-12	Unit 6 Critical Thinking Questions Unit 6 Lab Unit 6 Activity Unit 6 Quiz Unit 6 Discussion
<b>7</b>	13-14	Unit 7 Critical Thinking Questions Unit 7 Lab Unit 7 Activity Unit 7 Quiz Unit 2 Discussion
<b>8</b>	15-16	Unit 8 Critical Thinking Questions Unit 8 Lab

Unit	Weeks	Assignments
		Unit 8 Activity Unit 8 Quiz Unit 8 Discussion Checkpoint 3 (Non-graded)
<b>Final Exam</b>		Final Exam Discussion <b>*Final Exam</b>

## Course Credit

The course grade will be calculated as follows:

- 50% coursework average;
- 50% summative assessment average, including the final exam;
- A passing course grade is 70 or higher.

Students must attempt all assignments in the course. The final exam will not be available until all assignments have been accepted and graded by the teacher.

Students who score below 70% on the final exam will be eligible for one re-exam opportunity.

## Coursework

The graded assignments within each unit are formative in nature. This means that they are designed to assist you in applying and demonstrating the unit concepts, as well as identifying areas in which you need additional review. You may use all the unit's learning activities to assist you as you complete the graded assignments.

## Summative Assessments

Summative assessments are those that allow you to demonstrate mastery of the course objectives. For summative assessments, you will NOT be allowed to use the learning materials. These are opportunities for you to show what you have learned by that point in the course. Summative assessments may be proctored using the online proctoring system Proctorio. Information about Proctorio is provided in **Remote Proctoring** in the Syllabus section of your course. The summative assessments for this course are as follows:

- Summative Assessments **(20% of Course Grade)**
  - Midterm Exam
- Summative Final Exam **(30% of Course Grade)**

## Course Completion

- Students may not complete the course in less than 30 days.
- All courses expire six months after the enrollment date.

## Academic Integrity

It is the aim of the faculty of Texas Tech University to foster a spirit of complete honesty and high standard of integrity. The attempt of students to present as their own any work not honestly performed is regarded by the faculty and administration as a most serious offense and renders the offenders liable to serious consequences, possibly suspension.

“Scholastic dishonesty” includes, but is not limited to, cheating, plagiarism, collusion, falsifying academic records, misrepresenting facts, and any act designed to give unfair academic advantage to the student (such as, but not limited to, submission of essentially the same written assignment for two courses without the prior permission of the instructor) or the attempt to commit such an act.

## Student Expectations

You will be expected to log into the Blackboard course regularly to be aware of possible announcements/reminders and to pace your progress in the course.

Students are expected to maintain an online environment conducive to learning, which includes “netiquette” (Internet etiquette). Please review the basic rules for [Online Discussion Netiquette](#). Ensure that your email messages, discussion board postings, and other electronic communications are thoughtful and respectful. Diverse opinions are welcome in this course, and you are expected to demonstrate an open mind and courtesy when responding to the thoughts and ideas of others.

The following are prohibited:

- making offensive remarks in email or the discussion board;
- using inappropriate language or discussing inappropriate topics online;
- spamming;
- hacking;
- using TTU or Blackboard email or discussion boards for commercial purposes;
- using all caps (considered shouting in online communications); and
- cyber-bullying or online harassment of any type.

Inappropriate behavior shall result in consequences ranging from a request to correct the problem, to removal from the course or even the university, depending on the severity of the behavior. Disciplinary actions will be taken according to the TTU K-12 Student Handbook.

## Communication

- You can expect a reply from your instructor within 2 business days.
- Use the Blackboard Course Messages tool for sending messages to your instructor.

## Submitting Assignments

You will submit all assignments through the Blackboard Assignment Tool, rather than by mail or email.

## Technical Difficulties

### ***Getting Help***

For student assistance with Blackboard, visit [TTU K-12 Support](#).

### ***Computer Problems***

A working computer is necessary for online coursework. Computer problems will not be accepted as a valid reason for failure to complete course activities within the allotted time frame. Identify a second computer, before the course begins, that you can use if you experience computer problems.

### ***Server Problems***

When the Blackboard server needs to be taken down for maintenance, the Blackboard administrator will post an announcement in your course informing you of the time and date. If the server experiences unforeseen problems, your course instructor will notify you.

### ***Lost or Corrupted Files***

You must keep/save a copy of every project/assignment on an external disk or personal computer. In the event of any kind of technology failure (e.g., Blackboard server crash or virus infection, students' own computer problems, loss of files in cyberspace, etc.) or any disputes, the instructor may request or require you to resubmit the files. In some instances, the instructor may need to open another attempt within Blackboard, so communication with your instructor is critical in these circumstances.
