KIN 5304 Clinical Internship  
Texas Tech University (TTU)  
Department of Kinesiology and Sport Management (KSM)  
Clinical Exercise Physiology Internship Program

OVERVIEW
Three academic credit hours is equal to 250 hours of clinical internship work hours in a rehabilitative setting if you are in the Clinical Exercise Physiology Track. You are required to accrue a minimum of 250 clinical hours if you are completing a thesis. If you are not completing a thesis, you are required to complete 500 hours of clinical internship hours. The grade you receive will be P or F. You will receive a CR if you do not finish your hours or complete the projects in the semester you are enrolled.

Your first 3 hours of internship experience should be completed at University Medical Center (UMC) or Covenant Hospital in Cardiac & Pulmonary Rehabilitation or Brownfield Regional Medical Center. If the site is full and you cannot get in, then please discuss this with the internship director and alternate plans can be made. The second 3 hours of your internship may be completed at the same site or the other site that you did not choose initially (Brownfield Regional Medical Center, UMC or Covenant). You may also complete your internship at a site listed under Other Potential Internship Sites for your second 3 hours of internship or at a site which is not listed on this sheet (designed specifically by you and the internship director).

SITES FOR FIRST 3 HOUR BLOCK OF INTERNSHIP EXPERIENCE:

Covenant Health Care Hospital System/Lifestyle Centre
