

Research Assistantship Position Available

Department of Mechanical Engineering
Texas Tech University

February 8, 2024

Prof. Stephen Ekwaro-Osire has funds to support a research assistant for a three-year project starting in the **spring of 2024**. The project is on autonomous ground vehicles. As you work on the project, you must pursue your **MS or PhD** in the Department of Mechanical Engineering. You are welcome to explore some of the recent research by exploring recent publications by Ekwaro-Osire Group (https://www.depts.ttu.edu/me/faculty/stephen_ekwaro-osire/index.php).

Requirements for the candidates:

- **US Citizen**
- Self-motivated and highly dependent on research
- Excellent experimental skills
- Interest in autonomous ground vehicles, reliability, design, & controls

If you are interested in this position, please send your CV to Prof. Ekwaro-Osire at stephen.ekwaro-osire@ttu.edu.
