Mechanical Engineering Graduate Seminar

Feedback Sheet

(To be completed by only Mechanical Engineering Graduate Students)

SHEET MUST BE LEGIBLE FOR CREDIT

Seminar Title: ____________________________________________________________
Date: __________________

Student’s Name: ____________________________________________________________
(written)

1. Please describe briefly what was relevant to your research or graduate study.
   ________________________________________________________________
   ________________________________________________________________
   ________________________________________________________________
   ________________________________________________________________
   ________________________________________________________________

2. Grade the strengths of the seminar:

   1. Clarity of the speakers information
   2. Relevance of information to the students of Mechanical Engineering
   3. How well was the information presented?
   4. Did this seminar give you something to think about, when it comes to broadening your horizons in engineering?
   5. Was this information new to you?
   6. Did you learn any helpful tips in presenting your research?

   1. 2. 3. 4

3. Briefly describe how this seminar has impacted your outlook on research
