Mentor Tech
Confidentiality Policy

To honor the mentor-protégé relationship and encourage honest communication, all information shared should be considered confidential. The only exceptions are if a protégé is threatening to harm themselves, harm others, and/or is being harmed by someone. Mentors may consult with Mentor Cluster Leaders (MCL), Protégé Advisory Committee Members (PAC), or the program staff for guidance on how to assist protégés. Mentors and protégés are asked not to share the details of their conversation(s) with others. Mutual trust and respect is imperative to building and maintaining the protégé-mentor relationship.
