

Minor in Natural Resource Management

This program is administered by the Department of Range, Wildlife, and Fisheries Management in the College of Agricultural Sciences and Natural Resources. Students desiring to obtain a minor in Natural Resource Management should consult with the minor advisor relative to selection of specific courses.

I. All students will take:

NRM 1300	Environmental Science as a Social Pursuit	3 hours
----------	---	---------

II. Students will select at least one of the following courses:

NRM 1401	Introduction to Natural Resources Management	
NRM 2305	Introductory Freshwater Ecology and Fisheries	3-6 hours

III. Students will select their remaining credit hours from any 3000-4000 level NRM courses TBD in conjunction with the minor advisor, to constitute a total of at least 18 semester credit hours for the minor.

Some of the optional courses have prerequisites listed in the catalog. Please visit with the minor advisor to discuss waiver of the prerequisites.

Contact minor advisor: Dr. Robert Cox at robert.cox@ttu.edu with questions.
