II. Open Request Updates
   a. Payroll Storage Doak Hall Safety
      Payroll requested additional storage on the second floor of Doak Hall. Previously, a small amount of space had been allocated for box storage. Based on the reports from the Fire Marshall, no additional space is able to be allocated for storage in Doak Hall until further updates have been made. Additional storage options will be explored to meet the need of this group.

   b. Wind Energy Classroom
      The greatest issue with the selection of classrooms for this group is technology, software and permissions. The group is working with IT and HPCC for additional options. ODPA will work with ASFR and some of the colleges to discuss the potential to share academic spaces. When the department begins to show demand for a dedicated space, the committee will then reevaluate the allocation of space.

   c. Center for Undergraduate Infrastructure Research and Education (CUIRE)
      There are no updates to this request since the May meeting. There has not been a space identified for this group yet, however a few options have been
