

# New Raider Rooms!

## Fall 2017 Raider Rooms

This fall we are pleased to have three new Raider Rooms added. Over the summer, we renovated Chemistry 049, Science 007, and Holden Hall 150. These large lecture classrooms received a technology upgrade including new laser projectors, computers, document cameras (Chemistry 049 and Science 007), new lighting systems, and new global locks. Our new Raider Rooms also received some cosmetic improvements including new carpet, paint, and a furniture refresh.

## Spring 2018 Raider Rooms

We will have more Raider Rooms coming online in the spring. These classrooms include: Electrical Engineering 118, Classical and Modern Languages and Literatures 001, Goddard Range & Wildlife Management 203, and Holden Hall 226. They are currently under construction. These rooms will receive similar updates as our other Raider Rooms on campus. We'll have more information as the construction project continues!
