RAIDERROOMS

Cybersecurity: Basic Checklist

CTS wants to share some basic steps you can take to start protecting yourself from cyber threats:

- Create and use strong, unique passwords

- Install anti-malware/anti-virus software on your computers and devices

- Update operating systems, anti-malware/anti-virus software, application software, and mobile apps

- Use screen locks and passcodes on your devices

- Back up your content

- Think before you click!

Spring/Summer Renovations

Four more rooms are slated for renovation during the spring and summer break! Holden 006, 075 will be renovated starting in the spring and continuing in summer. Chemistry 107 and English Philosophy 001will be renovated starting in the summer. All rooms will be receiving a some cosmetic and technological updates. We'll share more details as the project continues!

Raider Room Survey

Tell us how we're doing! Please fill out of our survey, if you have not already. Your opinion of these spaces is valuable to us and will be used to help us improve on current and future Raider Rooms. The survey closes on **April 20th,** so get your responses in before then!
