March 2019

Renovations In Progress!

This semester we've started a new round of renovations. Four rooms were selected to start renovations. Chemistry 107, Science 10, and Electrical Engineering 221/222 renovations began after Fall 2018 finals. Electrical Engineering 221 and 222 will be combined into one larger room.

The renovations for Science 10 and Electrical Engineering 221/222 are scheduled to be completed by the end of the Spring 2019 semester. Due to the size and scale of the Chemistry 107, renovations are scheduled to be complete for the Fall 2019 semester. We'll keep you updated during this exciting process!

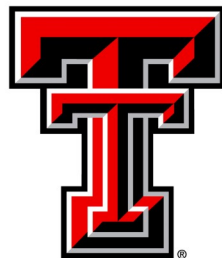

Blackboard Collaborate

Blackboard Collaborate provides more opportunities to further learning for students and faculty. There are two versions of Blackboard Collaborate available: Classic and Ultra. If you are interested in learning more about which version better suits your needs, you can copy the following link into your web browser.
