Welcome to the Osher Lifelong Learning Institute at Texas Tech University!

At Texas Tech University, we aspire to provide students an experience that is transformative, one that promotes intellectual curiosity, and promotes life-long learning.

The Osher Lifelong Learning Institute at Texas Tech University embodies these attributes. It offers unique opportunities for local citizens of more than 50 years of age who have a common interest in continuing their learning experiences and intellectual stimulation in an organization of like-minded people who value the joy of learning.

Many individuals have taken advantage of the offerings afforded through this exciting program. Courses are developed by peers with the goal of providing a high quality learning experience accessible to all. In addition, OLLI membership provides an opportunity for social interaction and new friendships with members who bring a lifetime of personal and professional experience to class.

I welcome and encourage your participation in this program that will provide opportunities to grow intellectually and socially.

Sincerely,

[Signature]

Lawrence Schovanec, Ph.D.
President.

The Osher Foundation

The Bernard Osher Foundation, headquartered in San Francisco, was founded in 1977 by Bernard Osher, a respected businessman and community leader. The Foundation seeks to improve quality of life through support for higher education and the arts. Mr. Osher is a community-oriented businessman whose philanthropy created Osher Lifelong Learning Institutes (OLLI) across the country. Our OLLI is in a network of 119 lifelong learning programs on university and college campuses across the country, with at least one grantee in each of the 50 states and the District of Columbia.

OLLI owes its existence to Bernard and Barbro Osher, whose vision and continuing moral and financial support of lifelong learning is unprecedented and unparalleled. We are very fortunate and proud to have an OLLI at Texas Tech University.
Our Mission

The mission of Osher Lifelong Learning Institute (OLLI) at Texas Tech University is to provide enjoyable and stimulating non-credit learning and cultural opportunities for its members.

What is Osher Lifelong Learning Institute (OLLI)?

OLLI began as a continuing education program at Texas Tech University in 2002-2003 as Texas Tech Lifelong Learning. In 2008, endowment support was received from the Bernard Osher Foundation. In recognition of its affiliation with the Osher Foundation and as one of 117 such institutes nationwide, Texas Tech Lifelong Learning was re-named Osher Lifelong Learning Institute (OLLI) at Texas Tech University. We are self-sustaining, supported through membership dues, class fees, an endowment from the Bernard Osher Foundation, donations and in-kind support from Texas Tech University. No tests, no grades, no research papers – Just intellectual stimulation.

What are the requirements to join?

Everyone age 50 and older may join. The only prerequisite is a desire to learn.

What does membership cost?

Membership is $30 per person, valid from September to July, and does not include cost of individual courses.

Who teaches OLLI classes?

Most of our classes are taught by distinguished professors, both active and retired. Other instructors are experts in their fields, university doctoral students or OLLI members. There is one common denominator: they teach because they enjoy education and OLLI students.

How do I sign up?

Below are the methods to register for memberships, classes and other events:

- Get a 3% discount if you pay online! Using a credit card, register online through our website www.oli.ttu.edu. We accept VISA, MasterCard, and Discover.
- Memberships or classes with food, transportation or supplies are not eligible for the discount.
- Mail registration form in catalog or printed from OLLI website www.oli.ttu.edu with a check to OLLI, TTU Higher Education Teaching Site at Fredericksburg, 2818 East U.S. Hwy 290, Fredericksburg, TX 78624.
- Bring completed form with check to the OLLI office in Fredericksburg on Monday-Thursday noon-5pm.

What if I have to cancel my registration?

(Applies to members and non-members)

You must submit your cancellation in writing or by email NO LATER THAN THE SEVENTH DAY BEFORE THE FIRST SESSION OF A CLASS. We ask that you accept a credit towards the fee for another class or event in same semester, but if a refund is preferred, one will be applied to the credit card used to register for canceled class. No cancellations or credits are allowed for any classes with bus transportation, food, or supplies. You may allow a substitute for your spot. If you pay online with a credit card, a refund is applied to same card in 2-3 weeks. If you pay by check, a refund can take 60-90 days to process.

What happens for weather or other emergency cancellations?

In case of questionable weather call 830.990.4948 and ask for OLLI to confirm if class has been canceled. OLLI reserves the right to substitute instructors, rearrange class schedules, or cancel classes because of low enrollment or other reasons. In case of class cancellation or a schedule change, you will be notified and may receive a credit for another class in the same semester or a refund.

Where is the OLLI office?

Our office is located in the TTU Higher Education Teaching Site at 2818 East U.S. Hwy 290, Fredericksburg, Texas. Our email is olli.hillcountry@ttu.edu, and our phone number is 830.990.4948. Our phone stays busy each semester, so if you reach voicemail, it is likely the staff is on another phone call or has a visitor in the office. Please leave a message, and your call will be returned as quickly as possible by an employee or a volunteer.

The Three Chapters of the Beatles

This course will focus on one of the most influential and successful music groups of the 20th century, The Beatles! The class will be taught in two 90 minute sessions, and will cover the Three Chapters of The Beatles:

• The Early Years (as the band formed and members joined or left)
• Beatlemania! (as the world discovered and fell in love with The Beatles and their music)
• The Studio Years (with touring behind them, the Beatles had ample time and resources in the recording studio to explore new musical and artistic expression for their rock music, and finally, the growing apart and “divorce” of the Beatles as a group.)

If you love The Beatles, you will love joining us for this journey through their story!

Cultural Intelligence: Becoming Fluent in Cultural Differences!

Six cultural value systems exist in most cultural groups around the world. By comparing those value systems, we can suggest the ways people from that culture are likely to think and behave. Think how much richer your next trip will be when you can explain some curious interaction or behaviors you observed with your insight into cultural values! As America becomes more diverse, this is a practical skill for interacting with members of different American subcultures as well.

Instructor: Marye Tharp, Ph.D., is a retired associate professor having taught at the University of Texas, Emerson College, and Shriner University. Her speaking engagements have included sites in Brazil, Japan, Chile, Ecuador, Vancouver, Kuala Lumpur, Malaysia, Manila, Singapore, and the United States.

Some Interesting Aspects of Hill Country Area Geology

Very few (if any) places in the United States can claim a geological past as interesting as the area within a triangle from Fredericksburg to Llano to Austin. This area has experienced it all! Earthquakes, volcanoes, great mountain ranges, enormous seas and cave formation are geological processes that have left their evidence in this area if we only look around.

This lecture will examine the geological history of this area by focusing on the uplift of the Edwards Plateau, the Enchanted Rock area, Longhorn Caverns and the Balcones Fault along with Pilot Knob, McKinney Falls, and the evidence left by the great Cretaceous Inland Seaway. So, let’s all be geologists for a while and take a virtual field trip to study the great geology of this most interesting area!

Instructor: Theron Sage, B.S., M.S., Ph.D. Geology. From 1999-2004 she served as the Associate Dean of the School of Natural, Applied Sciences and Mathematics. Dr. Sage is retired and is giving seminars and lectures on various geology subjects.

Collecting Mexican Folk Art
One Pueblo At A Time

Life after retirement for Professor Liebowitz and his wife, Judy, has included frequent trips to Mexico that led to their fascination with Mexican folk art. They became avid collectors and experts of this art form. Their home in Austin is full of folk art covering every wall, shelf, table top, even floors. Liebowitz will talk about some artists he discovered and photographed on these trips. His presentation will concentrate on their subsequent collection from a small traditional Tarascan pueblo in Ouchicho, Mexico.

**Instructor:** Harold Liebowitz, M.A. in Ancient Near Eastern Art, Ph.D. in Near Eastern Archaeology, taught Archaeology and Biblical History at The University of Texas at Austin for thirty-nine years. Professor Liebowitz authored articles and books on art and archaeology, and directed archaeological excavations in Israel.

April in Paris

“We’ll always have Paris,” Ilsa says to Rick in Casablanca, and generations of artists, writers, composers and dancers have felt exactly the same way. Some say it’s the history, and some say it’s the light – but we think it just might be the food. French cuisine has helped make and keep Paris at the center of Western civilization since the Middle Ages – first in palaces, then in restaurants, and finally right here in the Hill Country. Join host instructor John DeMers at the new Fischer & Wieser Culinary Adventure Cooking School in Fredericksburg for a delicious four-course exploration with wine of everything that makes this cuisine unforgettable. Along the way, John will share the history of signature dishes, both in their original forms and as they evolved outward through time to French colonies in Africa, the Far East and the Caribbean, and finally to the entire world.

John DeMers, has made many trips to Paris and the rest of France. The highlight of his journalism career was spending a full day interviewing TV’s “French Chef” Julia Child and her beloved husband Paul - talk about Paris being for lovers!

Join us for a culinary adventure including the menu of:

• Sea Scallops Provencal
• Wilted Spinach Salad with Bacon Vinaigrette
• Steak with Red Wine-Mushroom Sauce
• Toasted Cinnamon Pear Tarte Tatin

Instructor: John DeMer B.A. and M.A. in journalism. He is an author of many cookbooks. Currently he conducts cooking demonstrations for Fischer & Wieser at Das Peach Haus.

Dates: April 19 or 20, 2017
Days: Wednesday or Thursday, 5:00-7:00pm

Location: Das Peach Haus, 1406 US-87, Fredericksburg, TX 78624 (not broadcast) Class limited to 20.
Galveston – Pirates, Powerbrokers & Preservationists (Session One)

Galveston has a long and storied history! From the days when it hosted Jean Lafitte and the largest slave market in the New World, to the arrival of the powerful who directed the “Wall Street of the Southwest,” Galveston has molded the Texas story. Refusing to let the city die after the worst natural disaster in U.S. history, led to an engineering feat—a 17-foot seawall rose from the beach and the level of the island was lifted behind that barrier. After years of dominating the world of vice, the city discovered its Victorian beauty and rebounded as an oasis of 19th Century charm. After Hurricane Ike destroyed the hundred year-old oaks, the twisted trunks were sculpted into figures of art. The Phoenix continues to rise from the ashes.

Wave of German Migration (Session Two)

Friedrich Ernst, who is still called the “Father of German Immigration,” wrote such glowing letters about his new home in Texas, that Germans began arriving in small groups. Then, twenty-one German nobleman hoping to make a fortune by sending settlers to the cheap land in Texas, began a poorly-planned immigration program that led thousands of settlers—many to their death— to the barren shore of Matagorda Bay. Many remained on the coast and began a community that grew into the thriving seaport of Indianola. The first wave that continued inland established New Braunfels in 1845 and then moved on the following year to begin Fredericksburg. German immigrants spread out across Texas coloring the landscape with handwork and success.

Instructor: Myra Hargrave McIlvain is a teller of Texas tales. Whether she is sharing the stories in her books, lectures, or blog, she aims to make the Texas story alive.

Note: Sunstone Press is publishing Texas Tales: Stories That Shaped a Landscape and a People, a collection of her Texas history blogs. It is due out this year.

Pop Music of the 1960’s…The Times They Are a Changin’

We will spend the full class time on just the turbulent popular music history of the 1960’s. Great social and cultural changes were occurring in the face of monumental historical events, both worldwide and in our nation. The music we listened to reflected those tides of change. We will listen to and watch videos of artists performing the music that chronicles that most interesting pop musical decade.

Instructor: Larry Hess, M.M., is a retired Lubbock ISD educator and an OLLI member. He is also a professional musician, having retired after 30 years as a percussionist with the Lubbock Symphony Orchestra.

Six Thinking Hats: A Tool to Sharpen Your Thinking

We use tools for our everyday activities such as a computer, a hammer, or a cookbook to help us accomplish our tasks quicker and easier. But do we use a tool for our thinking in order to make our decisions faster? Or, do you say to yourself if only I could figure this out, or I’m going in circles trying to decide just what to do. In this workshop, you will learn how to separate thinking into six valuable functions and roles. Each thinking role is identified with a colored symbolic “thinking hat.” By mentally wearing and switching “hats,” you can easily focus or redirect your thoughts, the conversation, or the meeting.

Using the tool Six Thinking Hats®, participants will learn how to:
• think clearly and objectively
• view problems from new and unusual angles
• make thorough evaluations
• see all sides of a situation
• look at problems, decisions, and opportunities systematically
• stimulate innovation by generating more and better ideas quickly
• go beyond the obvious to discover effective alternate solutions
• spot opportunities where others see only problems
• achieve significant and meaningful results

Instructor: Lisa Bargsley, C.P.A., M.B.A., She holds an MBA degree from the University of Texas at Austin and has been licensed as a CPA in Texas since 1994. Lisa is frequently invited to speak at business seminars and other functions.

Me: 8, Death: 0 – Surviving a Mid-air Jet Collision

Raymond Bronk will describe the facts surrounding his Sabrejet collision, the death of the attacking pilot, the fate of Ray's wingman, and the long minutes before his safe parachute landing. He will tie his survival decisions and their successes to the many preparations that guided his thinking and allowed a return to a safe ending. He stresses that preparations in most endeavors help insure success for all who prepare adequately for their acts, vocations, and life choices.

Instructor: Ray Bronk has been a professional writer for four decades, and has written for many national magazines, including eight sales to Field & Stream, and scores of sales to other national and regional magazines. His two self-syndicated columns have appeared in over 130 newspapers. He was honored as one of “The Best of the Best Writers in One Hundred Years” for Field & Stream Magazine.

His description of his US Air Force jet mid-air collision and subsequent efforts to survive is compelling, exciting, and unbelievable. He survived eight death-dealing situations during a time of microseconds, and then survived 37 long minutes in his parachute before safely reaching the ground. He credits surviving his eight life-crisis moments to preparation, and explains the intriguing decisions that brought him safely to earth.
