Human Sciences: Dean Linda Hoover

**Please describe your department / program and its mission.**

This is an undergraduate program-8 semesters. The degree plan has a strong focus in the sciences with support courses in chemistry, physiology, mathematics, food microbiology/sanitation and safety. Career courses include nutritional sciences, food preparation, biochemistry, experimental foods, food service systems management, medical nutrition therapy and community nutrition. Upon program completion qualified students receive a Verification Statement that allows them to apply to a dietetic internship.

The mission of the DPD Program is to prepare graduates for careers in dietetics and related fields by offering core knowledge and skills through quality education, for the purpose of improving and
What is your current review time-line?

Program was reaccredited in 2014 for 10 years. The next site visit is scheduled for spring 2024.

Additional notes regarding current standing:

In May 2015, an update was submitted to and accepted by ACEND regarding the change in department name and the new department chairperson.

Explanation for not pursing accreditation:
