**By Vote of The Phi Beta Kappa Society  
October 28, 2006**

**F**ounded at the College of William and Mary in 1776, The Phi Beta Kappa Society has for more than two centuries embraced the principles of freedom of inquiry and liberty of thought and expression. These ideas, symbolized on Phi Beta Kappa's distinctive gold key, promote the foundations of personal freedom, scientific inquiry, liberty of conscience, and creative endeavor. The letters Phi Beta Kappa represent the Greek initials of the society's motto: "Love of learning is the guide of life."

Only about ten percent of the nation's institutions of higher learning have Phi Beta Kappa chapters. Only about ten percent of graduates in the liberal arts and sciences at these distinguished institutions are selected for lifetime Phi Beta Kappa membership.
