

THE BUCY LECTURE SERIES

A year (and more) of Astrophysics with
NASA's James Webb Space Telescope

TIME

7 PM

DATE

Tuesday, April 23

LOCATION

SC 007

Please join us as Dr. Rita Sambruna takes us on a journey of discovery from the edge of the Solar System to distant galaxies marking the birth of the Universe through the breath-taking images gathered with NASA's James Webb Space Telescope.

A native of Italy, Dr. Sambruna is one of the foremost experts and world leaders in the field of extragalactic astronomy. Currently the Deputy Director of the Astrophysics Science Division at NASA's Goddard Space Flight Center, she has been recognized nationally and internationally with several honors, including a NASA's Exceptional Achievement medal and a NASA Honor Award for her leadership.

Open to the public, admission is free
