

Pre-Medicine Mentor Program Application

Name _____ Major _____
R Number _____ Email: _____
GPA _____

I. Medical School Required Courses Complete

Grade (leave blank if no grade)

Introductory Biology

BIOL 1403 *Biology I* _____

BIOL 1404 *Biology II* _____

Upper Division Biology (enter course number and name)

BIOL _____

BIOL _____

Chemistry

CHEM 1307 *Principles of Chemistry I* _____

CHEM 1308 *Principles of Chemistry II* _____

CHEM 3305 *Organic Chemistry I* _____

CHEM 3306 *Organic Chemistry II* _____

Biochemistry (enter department, course number and course name)

Statistics (enter department, course number and course name)

Introductory Physics (enter course number and name)

PHYS _____

PHYS _____

II. Personal Statement

Attach a personal statement describing how you believe you would benefit from participation in this pre-medicine mentoring program. The statement must be typed, double-spaced, maximum 12 point font, and maximum one-page length.

III. Registration in IS 3110

IS 3110 Seminar in Health Professions is a pre- or co-requisite for participation in the mentoring program.

Pre-Medicine Mentoring Program Description

The pre-medicine mentorship program is a unique experience where a TTU undergraduate student pursuing admission to medical school will be paired with a TTUHSC medical student who will act as a mentor. The mentor/mentee experience will include:

- Each pre-medicine mentee will be paired up with a medical student (either a 1st or 2nd year medical student) mentor.
- Medical students have 2 different courses each semester with one taken during the first half of the semester and the other taken during the second half. Each participating protégé will attend at least one class of both courses with their mentor on days that work best for the mentee. The mentors are encouraged to take their mentee to more classes if possible.
- Each mentor will take their mentee to one lunch organization meeting.
- The mentors will provide advice about the medical school experience and answer questions the mentee may have.
- All the mentee will need to do is to drive over to the medical school. The mentor will meet the mentee outside and guide him/her through the experience.

IS 3110 *Seminar in Health Professions* is a pre- or co-requisite for participation in the mentoring program.

The completed application is due in the Pre-Professional Career Office (Chemistry 340) or e-mailed to Kevin Strickland at Kevin.G.Strickland@ttu.edu.
