Do you have an active application with the School of Allied Health? _____

II. Personal Statement

Attach a personal statement describing how you believe you would benefit from participation in this pre-physical therapy mentoring program. The statement must be typed, double-spaced, minimum 10 point font, and maximum one-page length.

III. Registration in IS 3110

IS 3110 Seminar in Health Professions is a pre- or co-requisite for participation in the mentoring program.

Pre-Physical Therapy Mentoring Program Description

The pre-physical therapy mentorship program is a unique experience where a TTU undergraduate student pursuing admission to physical therapy school will be paired with a TTUHSC physical therapy student who will act as a mentor. This up-close look at life in a physical therapy program will allow the pre-physical therapy student to have confidence in their commitment.

The mentor/mentee experience will include:

- Each pre-PT mentee will be paired up with a PT student (either a 1st or 2nd year PT student) mentor.
- Each participating mentee will attend two classes with their mentor on days that work best for the mentee and have been approved by the faculty member. They will also have the opportunity to attend an anatomy lab tour (one tour set toward the end of the spring semester) or a student association meeting. The mentee understands that this will be observation only and will not be actively involved in the class work.
- The mentors will provide advice about the PT school experience and answer questions the mentee may have.
- All the mentee will need to do is to drive over to TTUHSC. The mentor will meet the mentee outside and guide him/her through the experience.
- The mentee understands that participation in this program does not guarantee admission into the TTUHSC School of Allied Health Sciences.

IS 3110 *Seminar in Health Professions* is a pre- or co-requisite for participation in the mentoring program.

The completed application is due in the Pre-Professional Career Office (Chemistry 340) or e-mailed to Kevin Strickland at Kevin.G.Strickland@ttu.edu.
