

Multicultural Requirement

The CCC uses the following criteria to determine whether a course should be included in the core:

1. The course should be a 1000- or 2000-level course. (In some situations, the CCC will consider 3000- or 4000-level courses, but such courses must fulfill all other criteria clearly.)
2. The course must be designed for any student to take as part of his or her general university education (as opposed to courses designed primarily for a major or specialization).
3. The course must not have any pre-requisites within the same core category the course is meant to fulfill (unless there is a clear sequence of courses in the category, such as MATH 1300 and MATH 2300).
4. In the case of sequenced courses, both courses must be submitted together and approved as a single category offering.
5. The course syllabus must contain the exact wording from the University Catalog for the objective of the Core Curriculum the course is intended to satisfy.
6. Cross-listed courses should be submitted together and clearly designated as core course options.
7. The course syllabus must begin with a course purpose statement, which must specify to students that the course fulfills the requirements for a particular core category.
8. Following the course purpose statement is the competency statement for the multicultural requirement: **Students graduating from Texas Tech University should be able to: demonstrate awareness and knowledge of distinctive cultures or sub-cultures—including but not limited to—ethnicity, gender, class, political systems, religions, languages, or human geography.**
9. Following the competency statement should be a list of learning outcomes. At least one of the outcomes specified by the CCC for that Core Curriculum category must be included in the list of learning outcomes. The learning outcomes for the multicultural requirement are as follows:
 - 1) *Demonstrate awareness and knowledge of cultural differences within one or more distinctive sub-cultures of the United States, or.*
 - 2) *Demonstrate awareness and knowledge of cultural differences within one or more global societies (Outside the U.S.)*
10. The learning outcome statements must follow best practices for measurability and include methods of assessment *for each outcome*. Each outcome must be directly paired with one or more assessment methods. A concise introduction to assessment is available on the Office of Planning and Assessment website: http://www.depts.ttu.edu/opa/resources/docs/Writing_Learning_Outcomes_Handbook3.pdf
11. The learning outcome statements must align with and contribute to the appropriate core category outcome statement.

Core Area for which course is submitted: _____

Approval procedure: Please attach a general course syllabus or, in the case of multiple sections with different syllabi, a separate syllabus for each section as appropriate.

Course submissions need to be approved at the department and college levels prior to submission to the CCC. Please insure that the appropriate individuals/committees have approved and signed your submission before forwarding the complete form to the CCC. Completed submissions should be directed to Gary Elbow, Chair, Core Curriculum Steering Committee, Office of the Provost, MS 2017.
